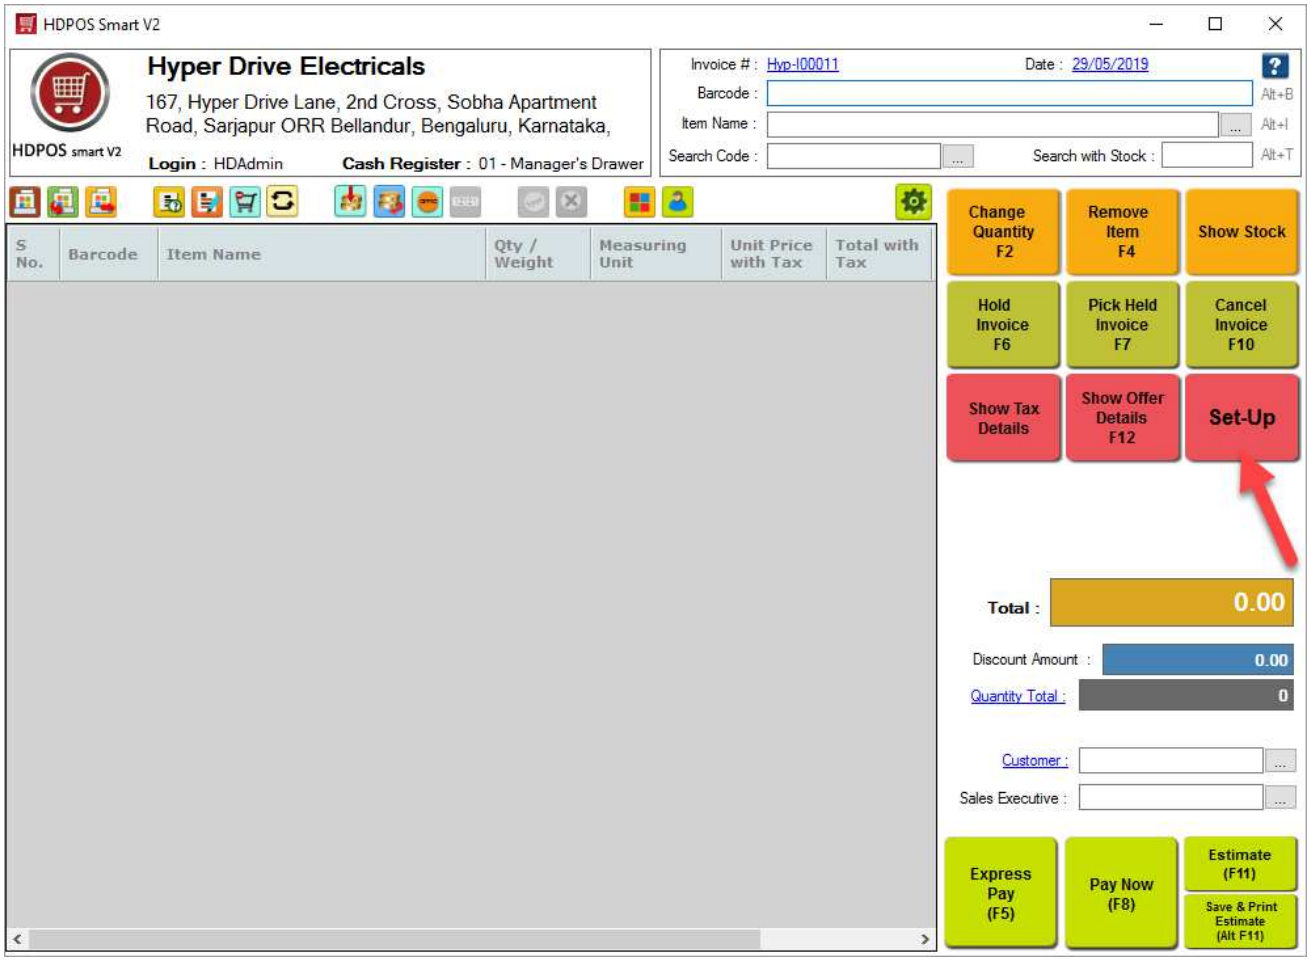
How to create item quick collection in HDPOS smart?

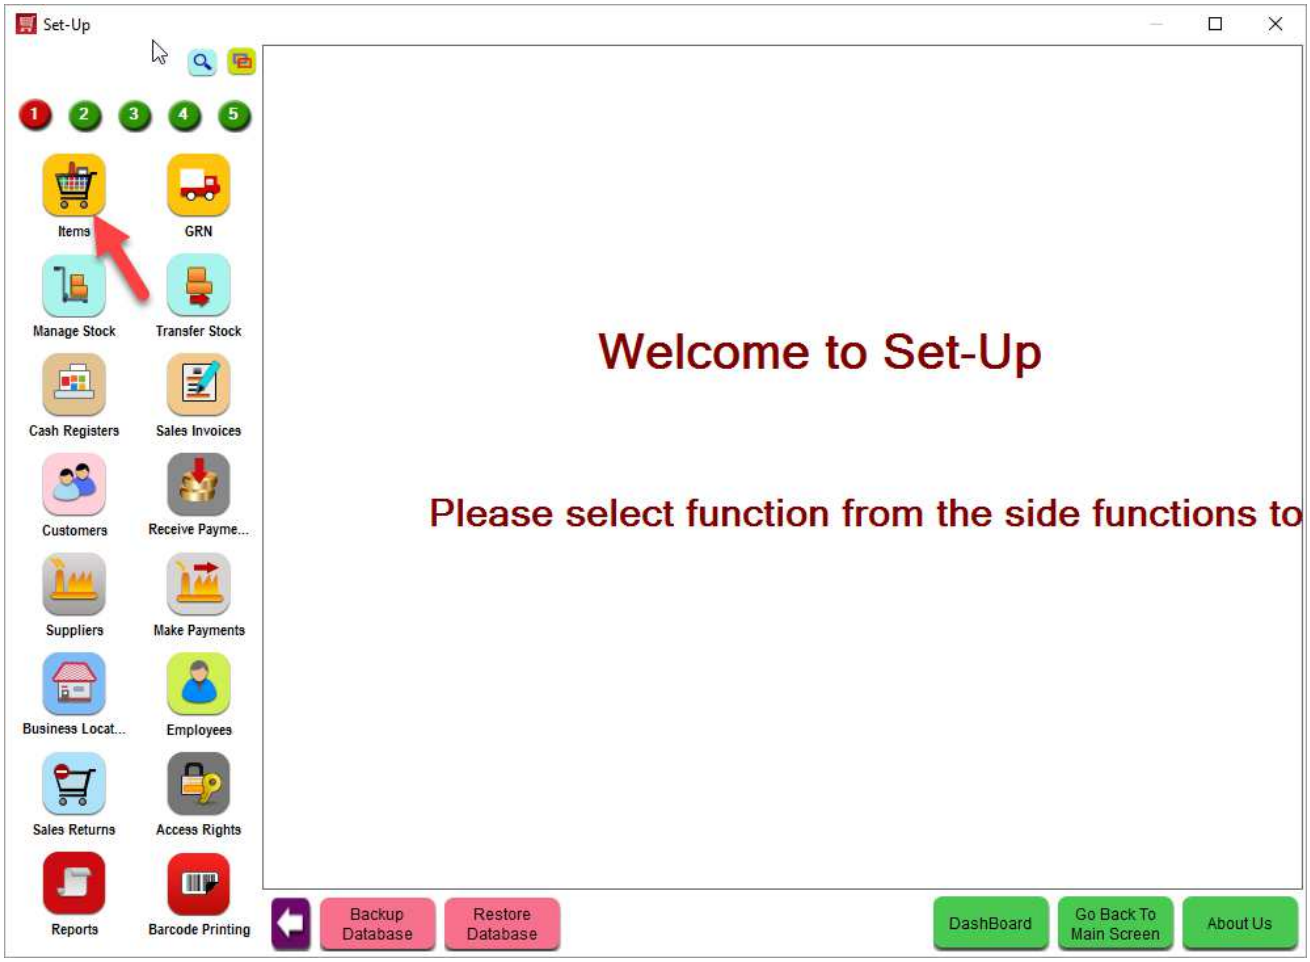
To create item quick collection you need to follow below steps :

1. Run **HDPOS smart**.

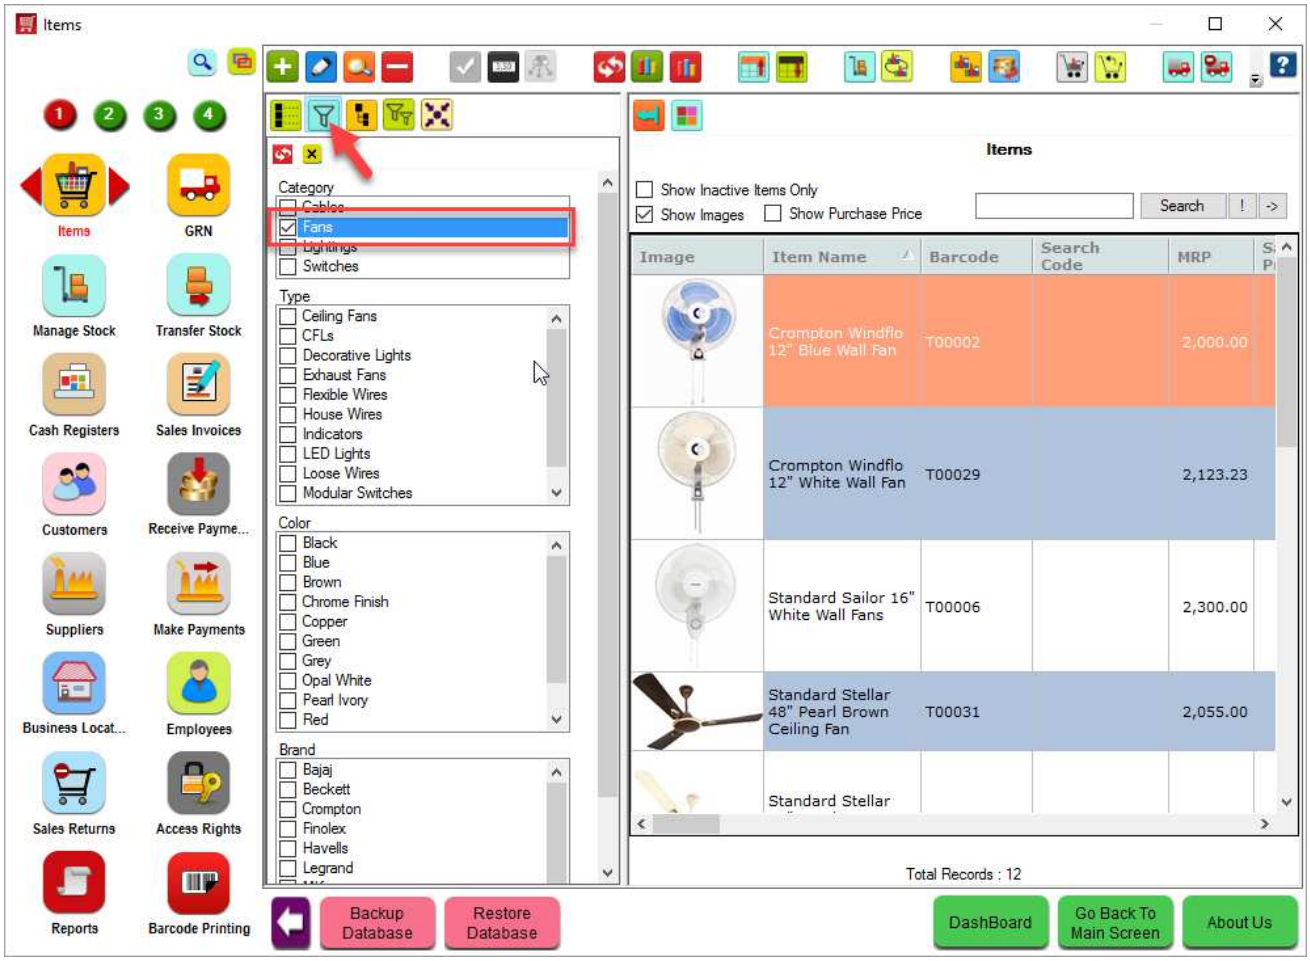
2. From Main Invoice screen, select **Set-Up**.



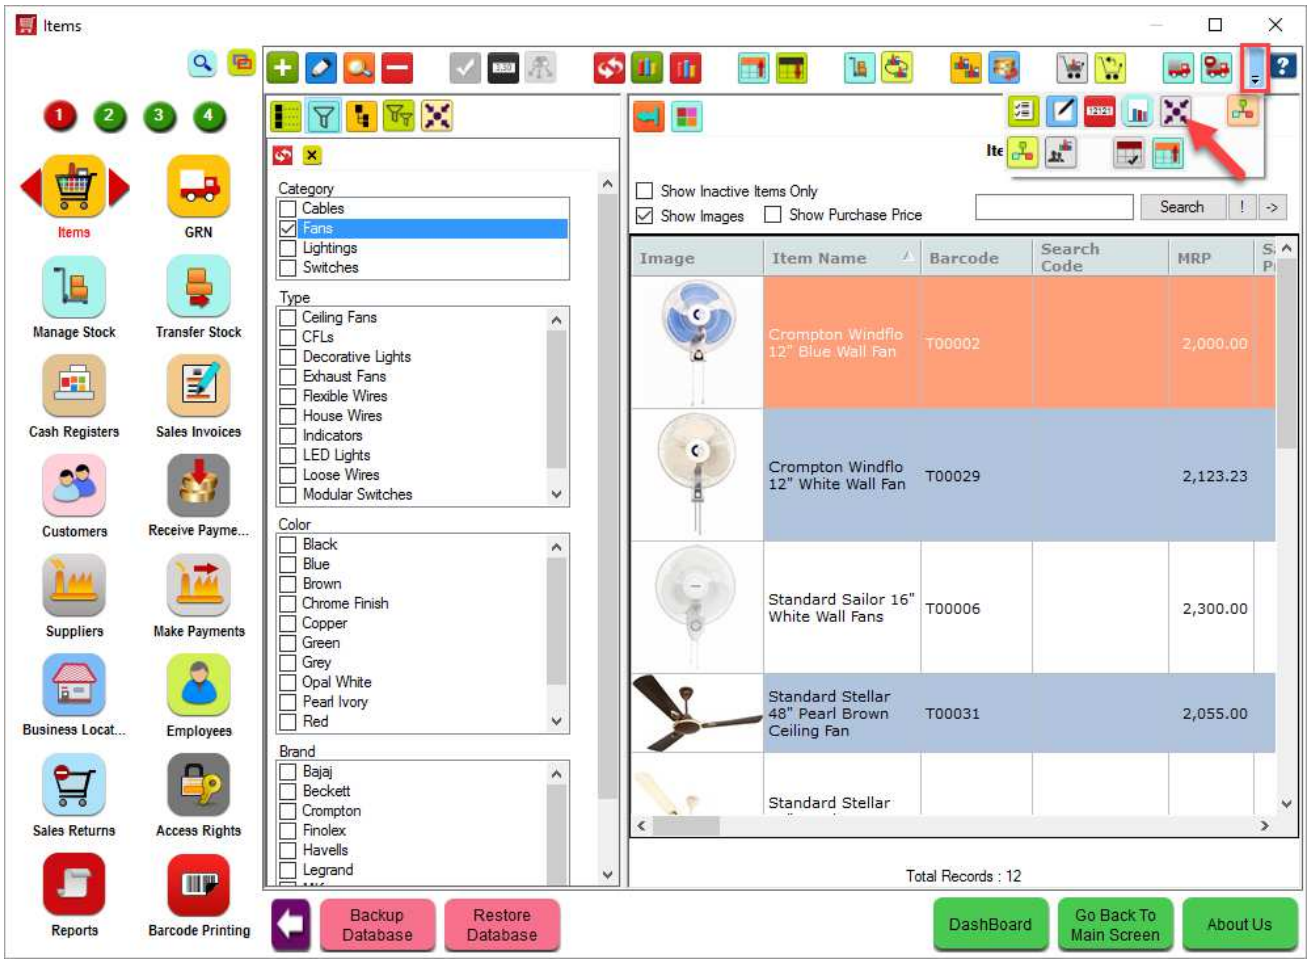
3. From 1st page of **Set-Up**, select **Items**.



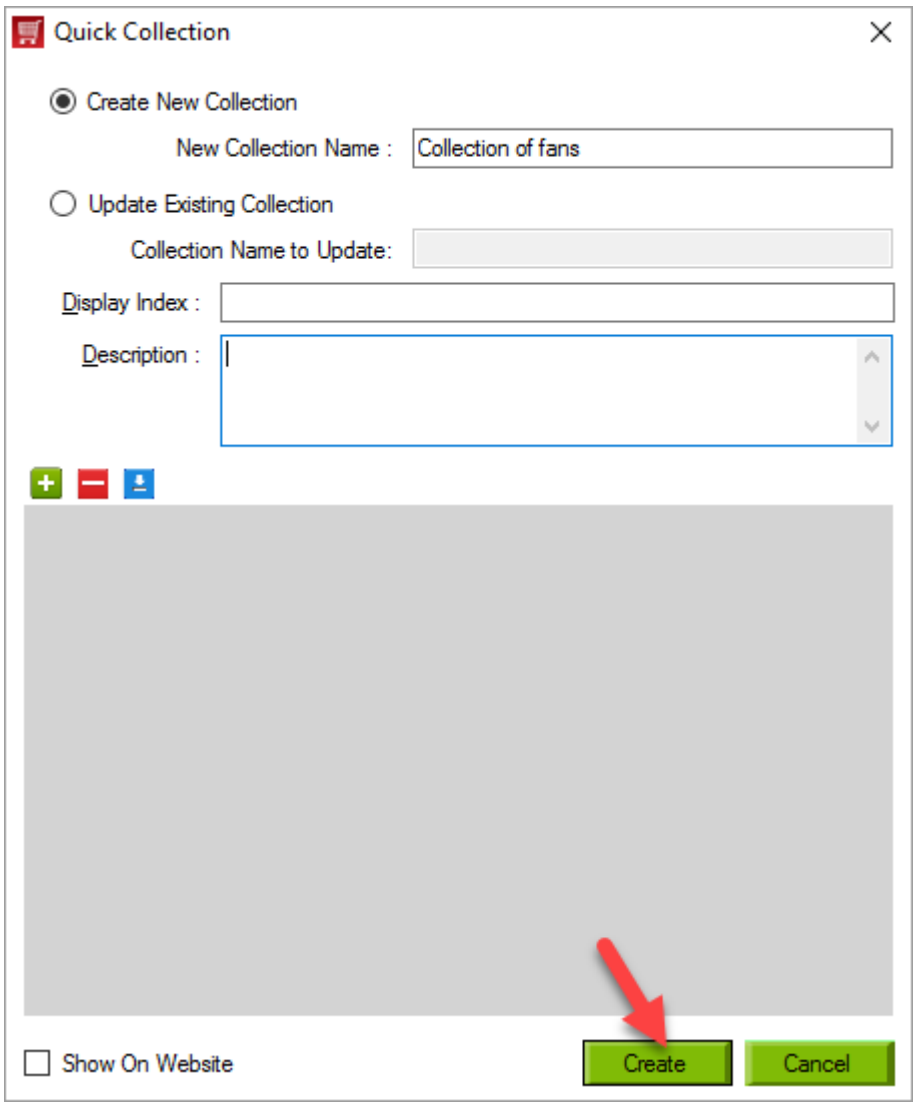
4. From **Items**, click on item filters and select the category or sub category available from the list. Here I have selected Fans from category list.



5. Select **Create Collection** tool strip button.



6. You will see **Quick Collection** window, enter the required details (Collection Name) and click on **Create**.



7. You can enter description for collection and can add image for collection.

8. If you want to show your collection on e-shop website, then check the checkbox **Show On Website**.

9. This way you can create item quick collection.
