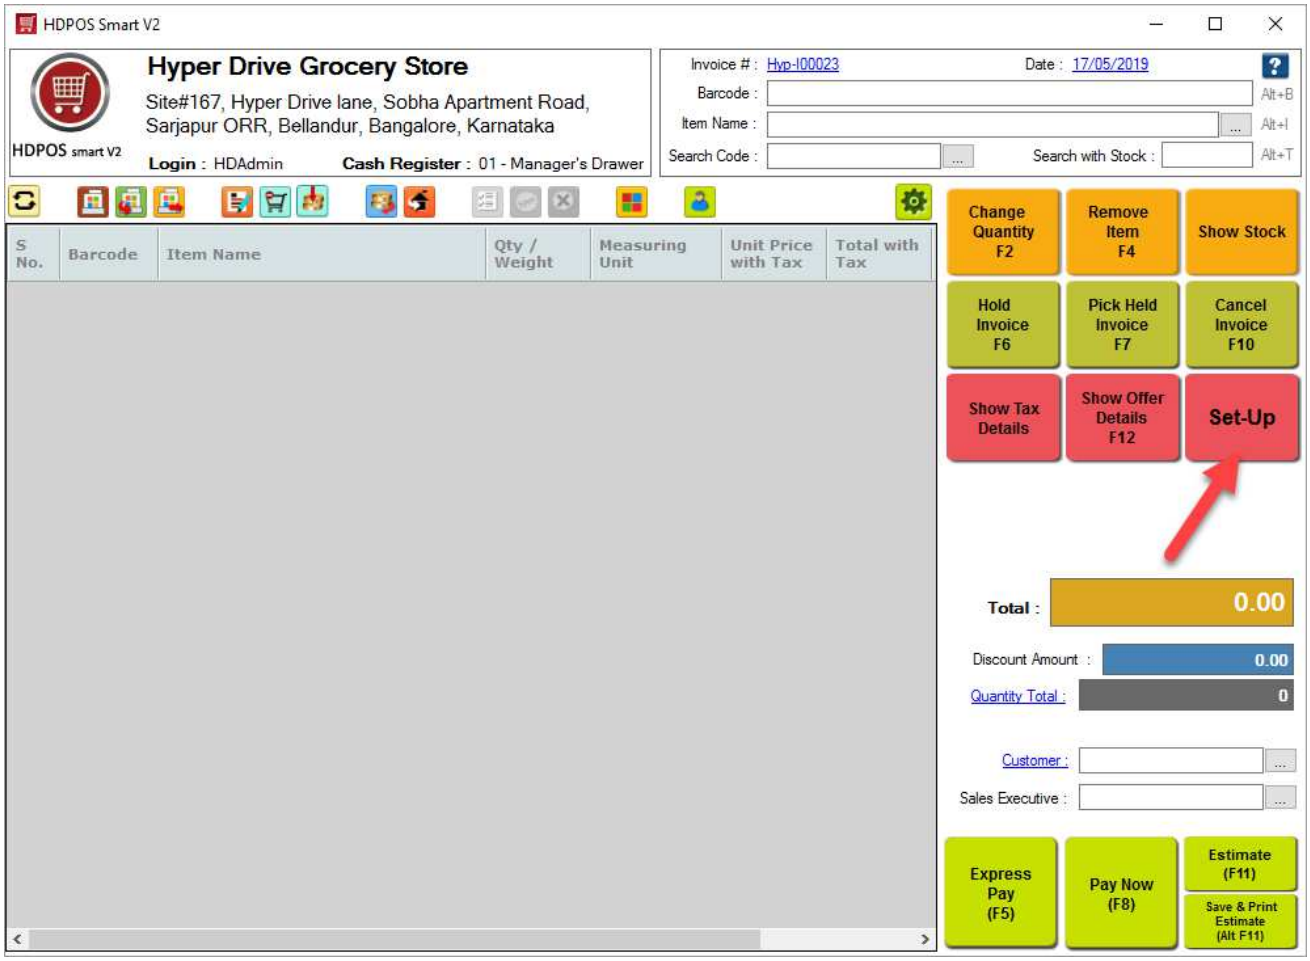
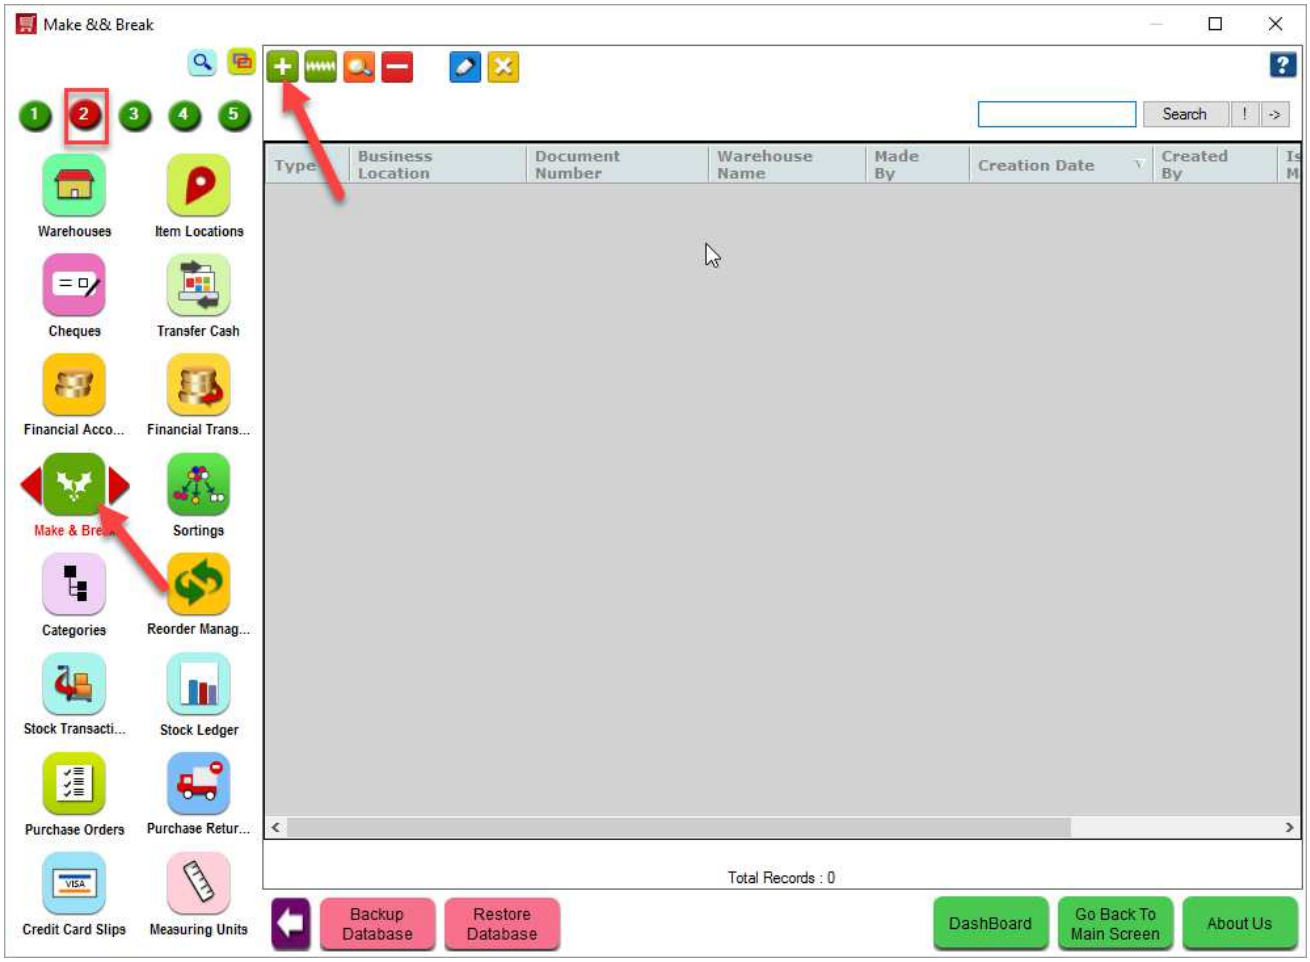
How to change BOM(raw material) quantity at the time of manual make?

Following are the steps to change quantity at the time of make :

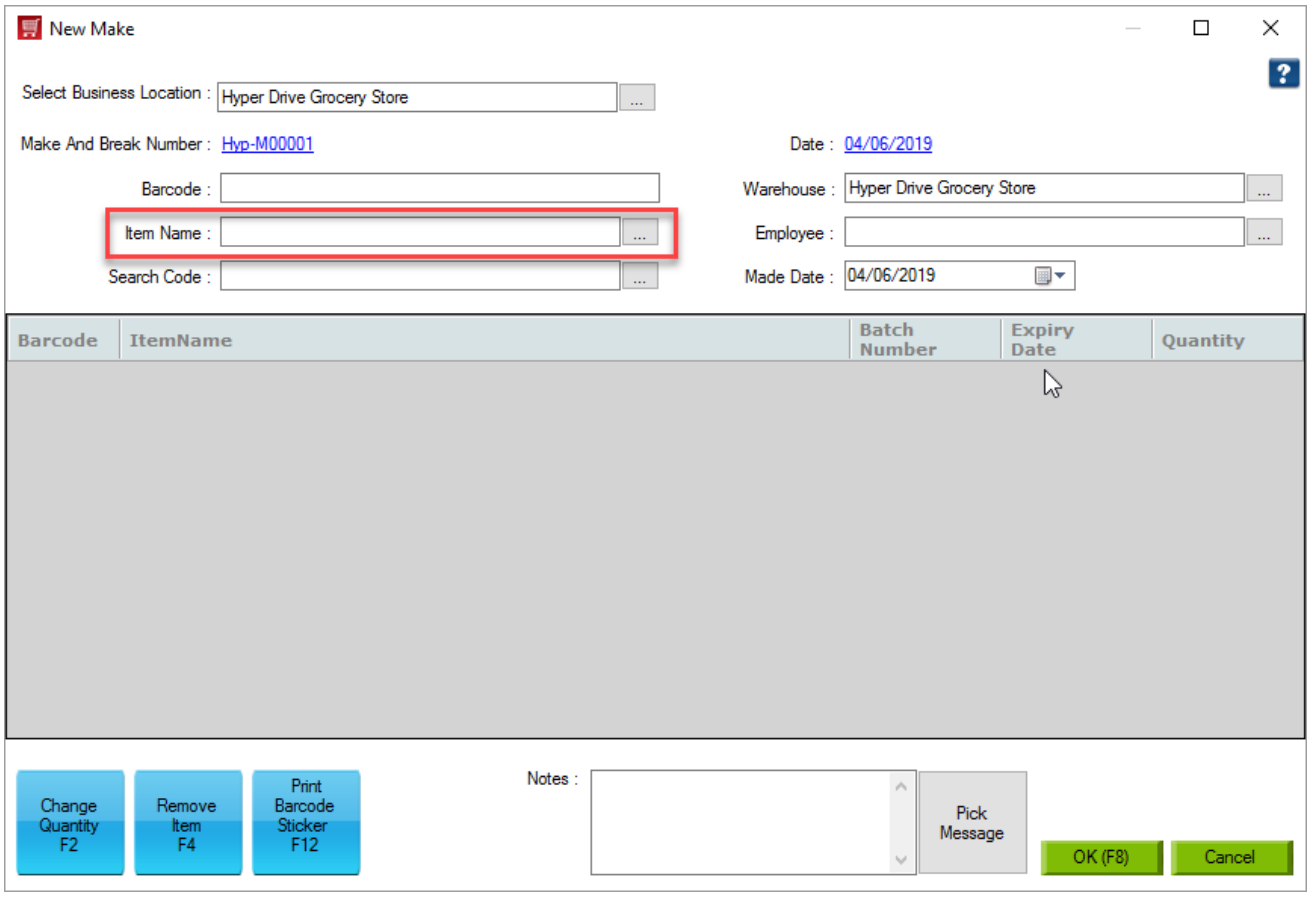
1. Run **HDPOS Smart**. Click on **Set-up** button on Main Screen.



2. Go to 2nd Page of **Set-Up**, click on **Make & Break** button. From **Make & Break** screen click on **Add New Make**.



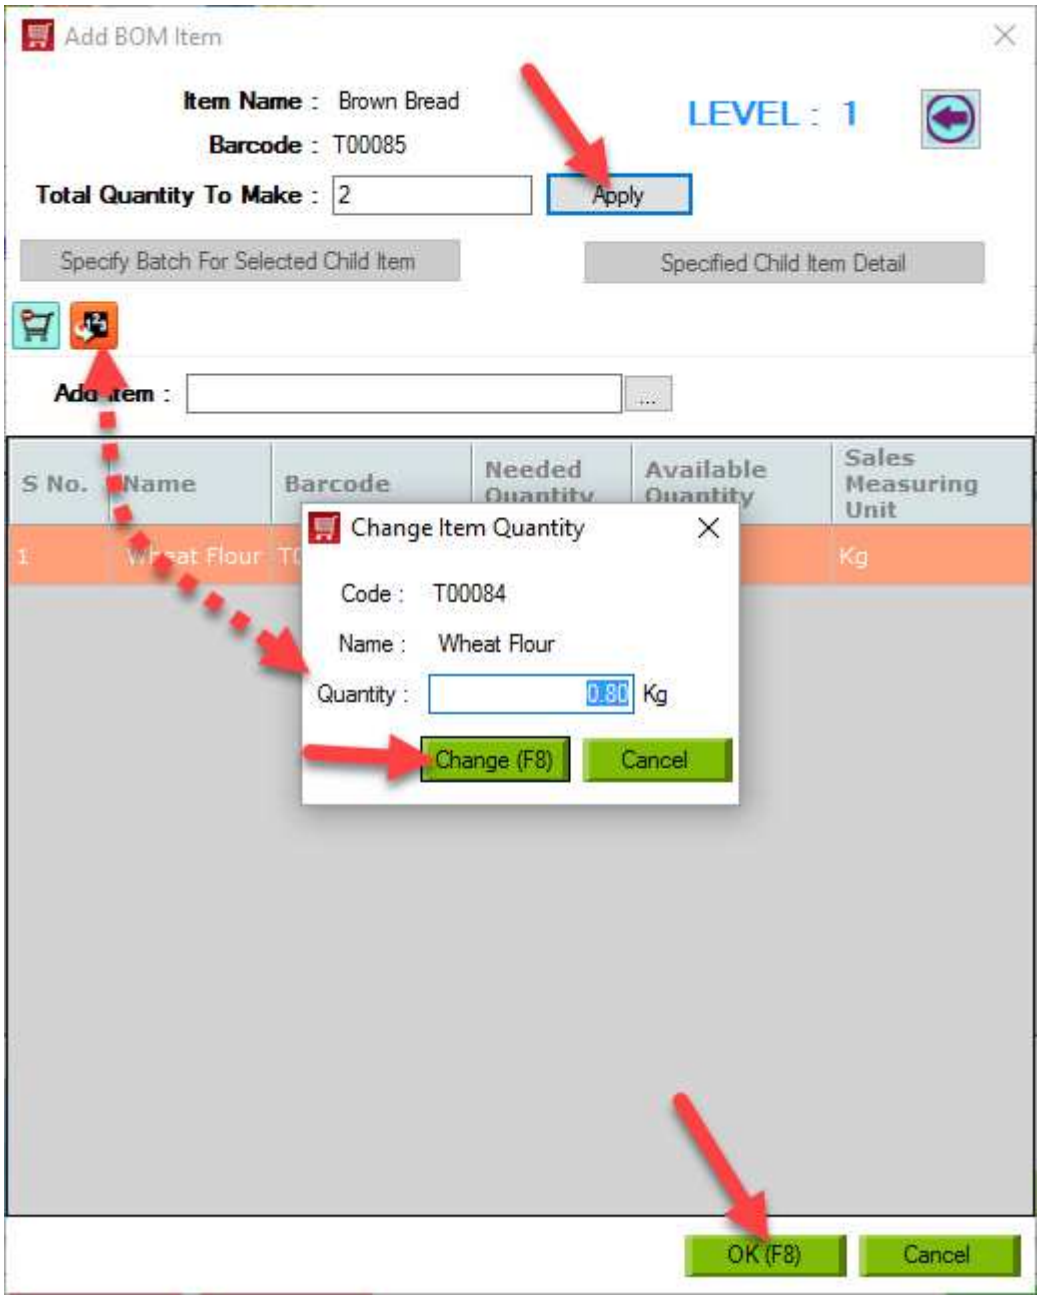
3. From the **New Make** screen. Select the item to be made in **Item Name**.



4. In **Add BOM Item** screen, select **Total Quantity** to make and then click on **Apply**.

5. Select the button **Change Quantity** or press **F2** to change the quantity of items.

6. **Change Item Quantity** window will open. There you can change the **Quantity** and click on **Change** or press **F8**.



7. Click on **OK**.

8. This way you can Edit your items BOM while performing manual **Make**.
