How to apply discount on total purchase without affecting your purchase price?

In HDPOS smart when the supplier gives you a discount on the total purchase the discount gets distributed against all the items in the GRN due to which the Effective purchase price of the item changes enabling you to calculate the actual cost of each item and the profit made on the sale of each item.

However there are some instances where you do not want your effective purchase price to get affected and just want to see the total purchase discount.

Here is what you would need to do for the same:

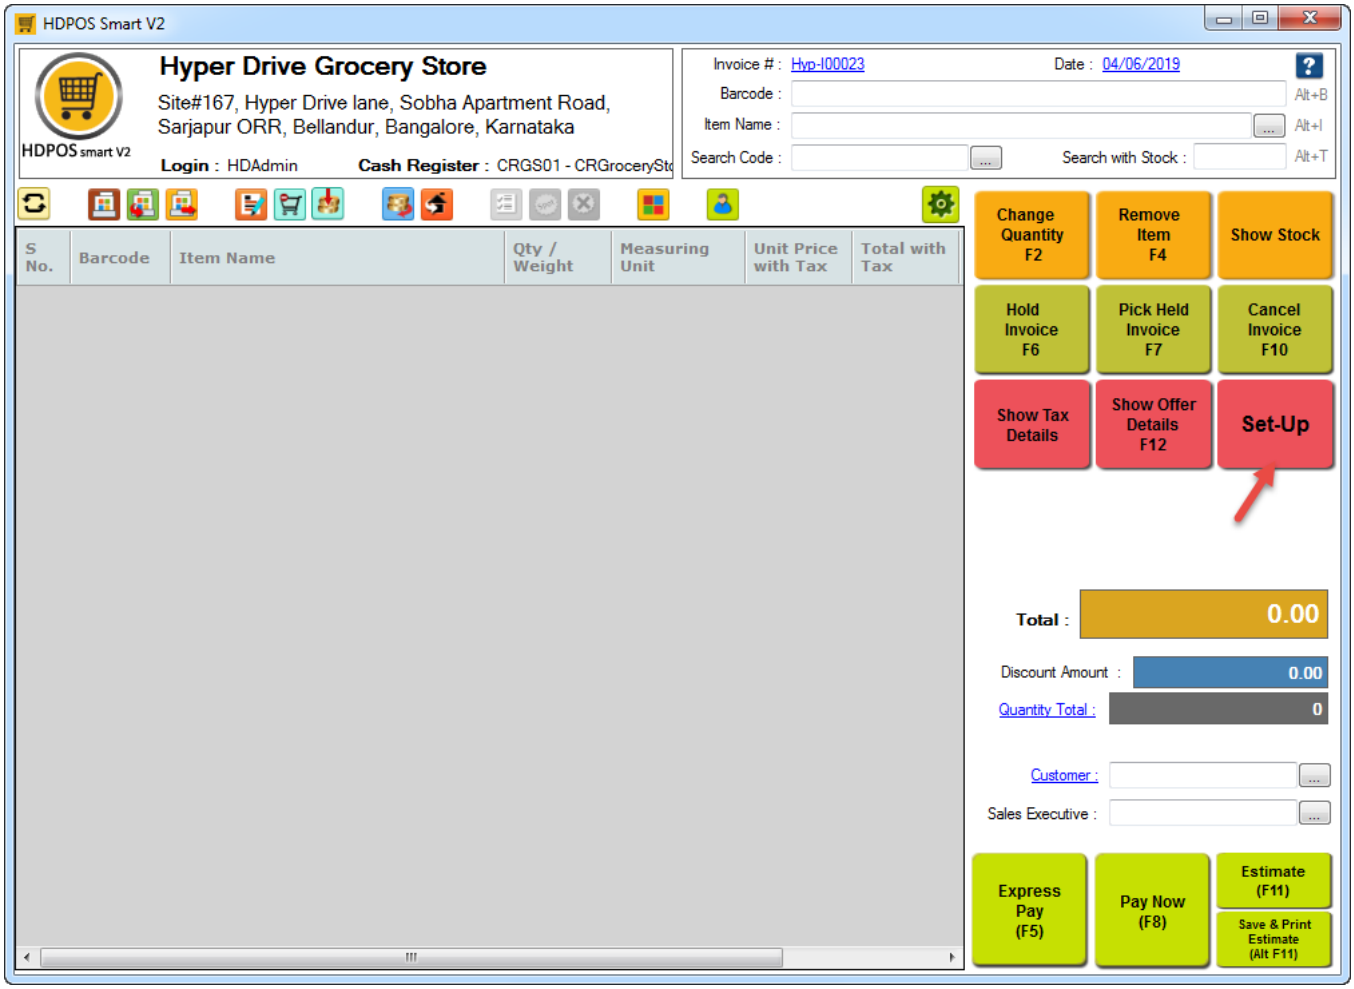

Step 1: Enable option '**Allow to add discount in GRN with No Effect on purchase price**' in General Settings.

Step 2: Create a **GRN** and apply purchase discount on total invoice.

Step 1: Enable option '**Allow to add discount in GRN with No Effect on purchase price**' in **General Settings**.

1. Run **HDPOS smart**.

2. From main screen, click on **Set-Up**.

3. From **4th page** of **Set-Up**, click on **Settings**.

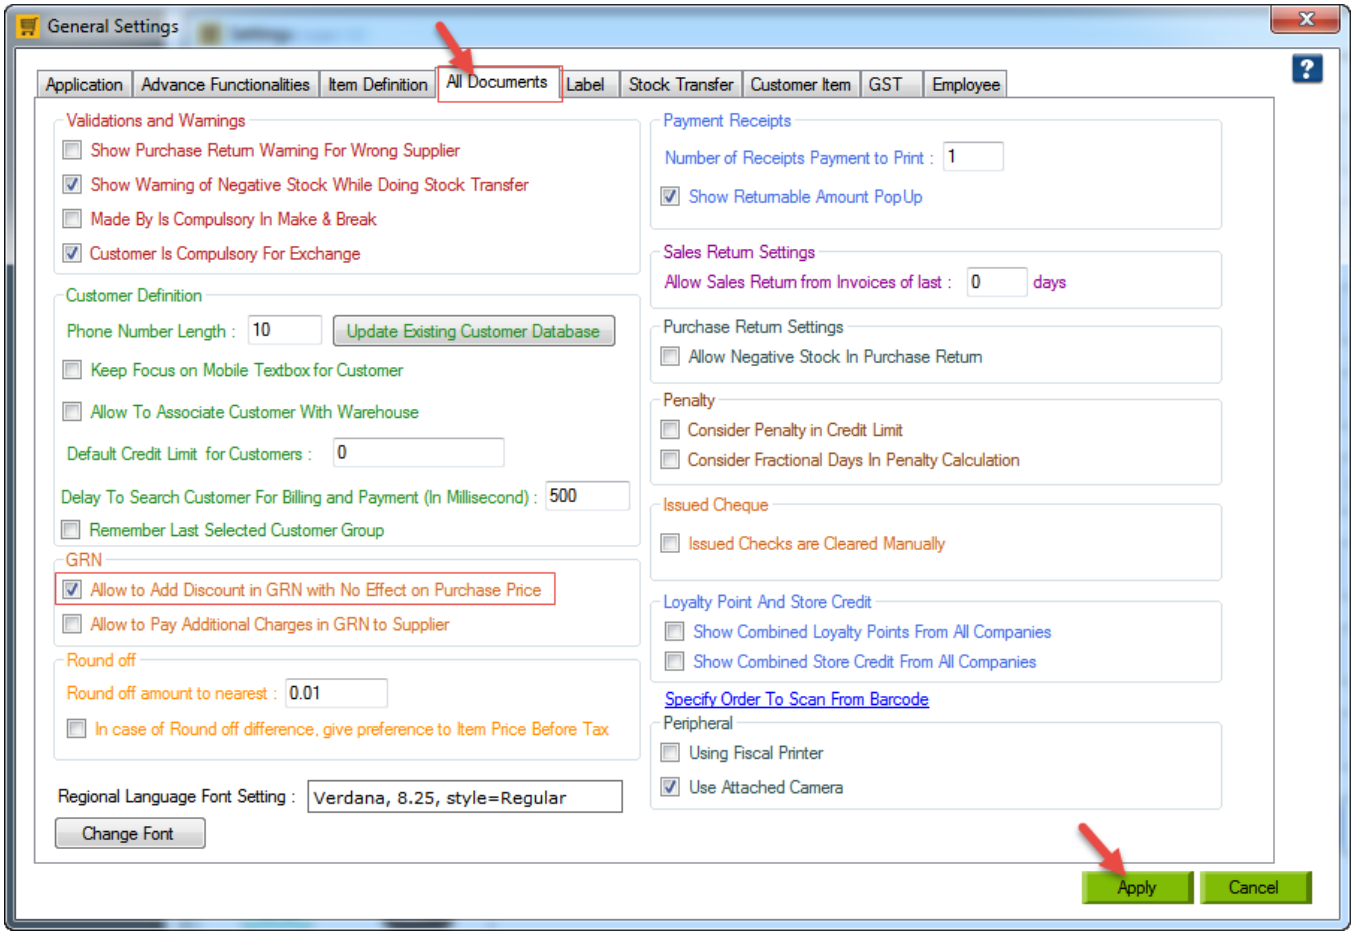

4. From **System Setting** Screen, click on **General**.

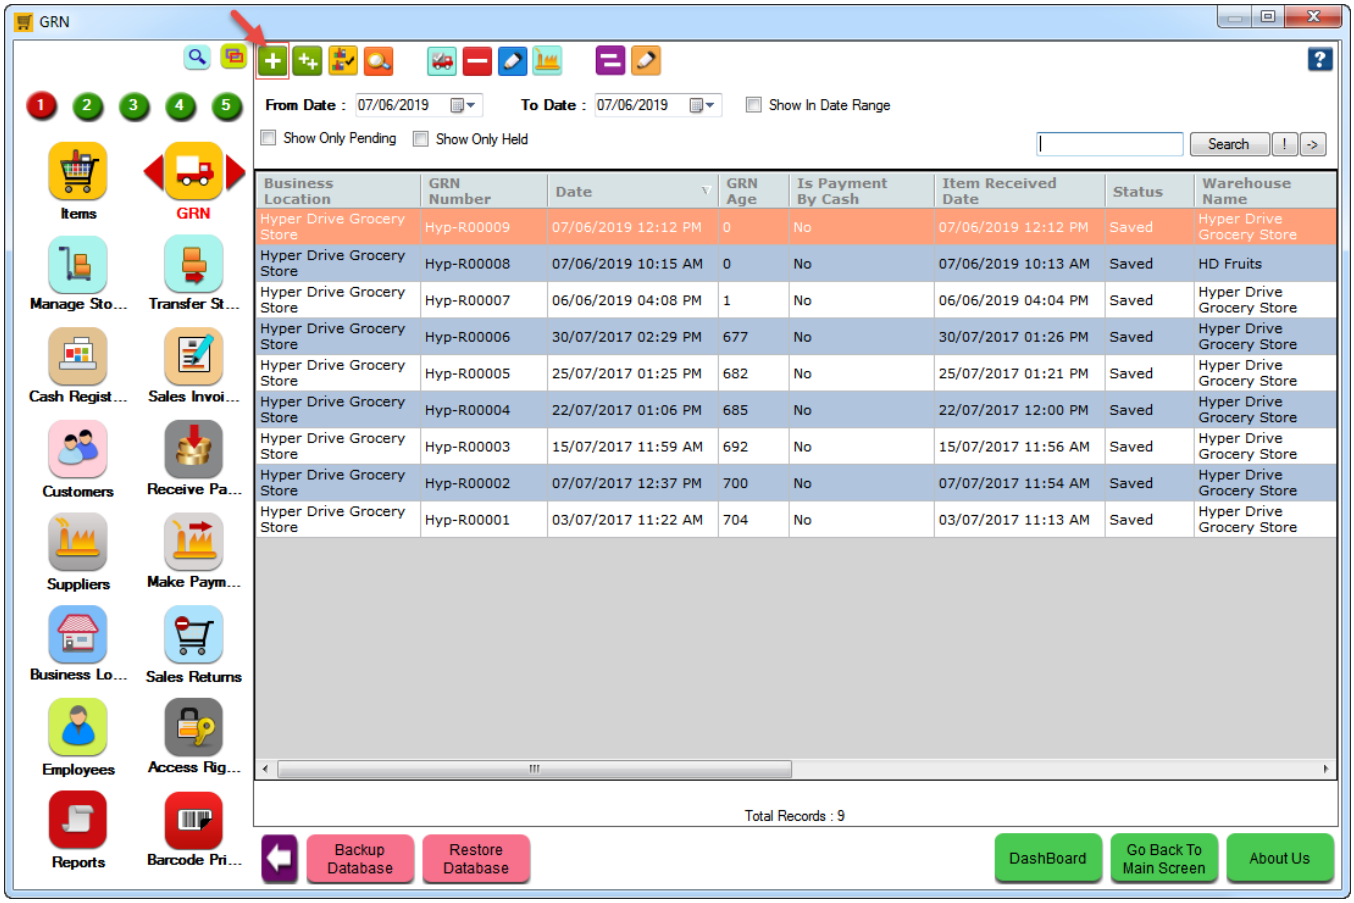

5. From **General Setting** screen,Go to **All Documents** tab. In **GRN** section ,

- Select checkbox **Allow to add discount in GRN with No Effect on purchase price**. (If this checkbox is selected you will see **Discount Amount** option in **GRN** screen).
- Click on **Apply**.

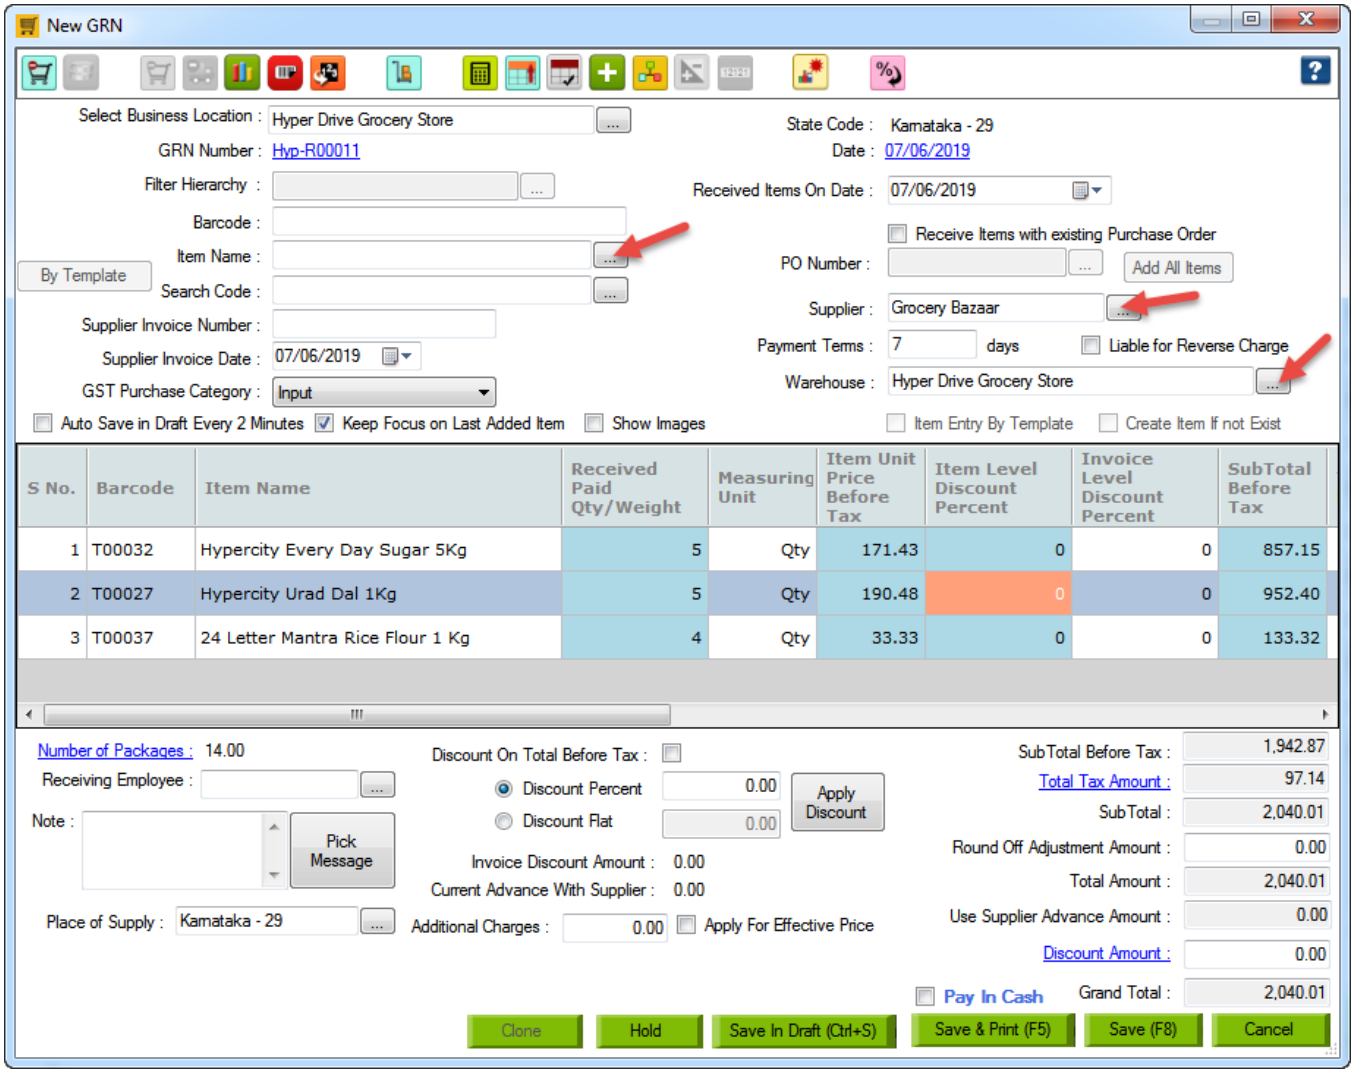

Step 2: Create a **GRN** and apply purchase discount on total invoice.

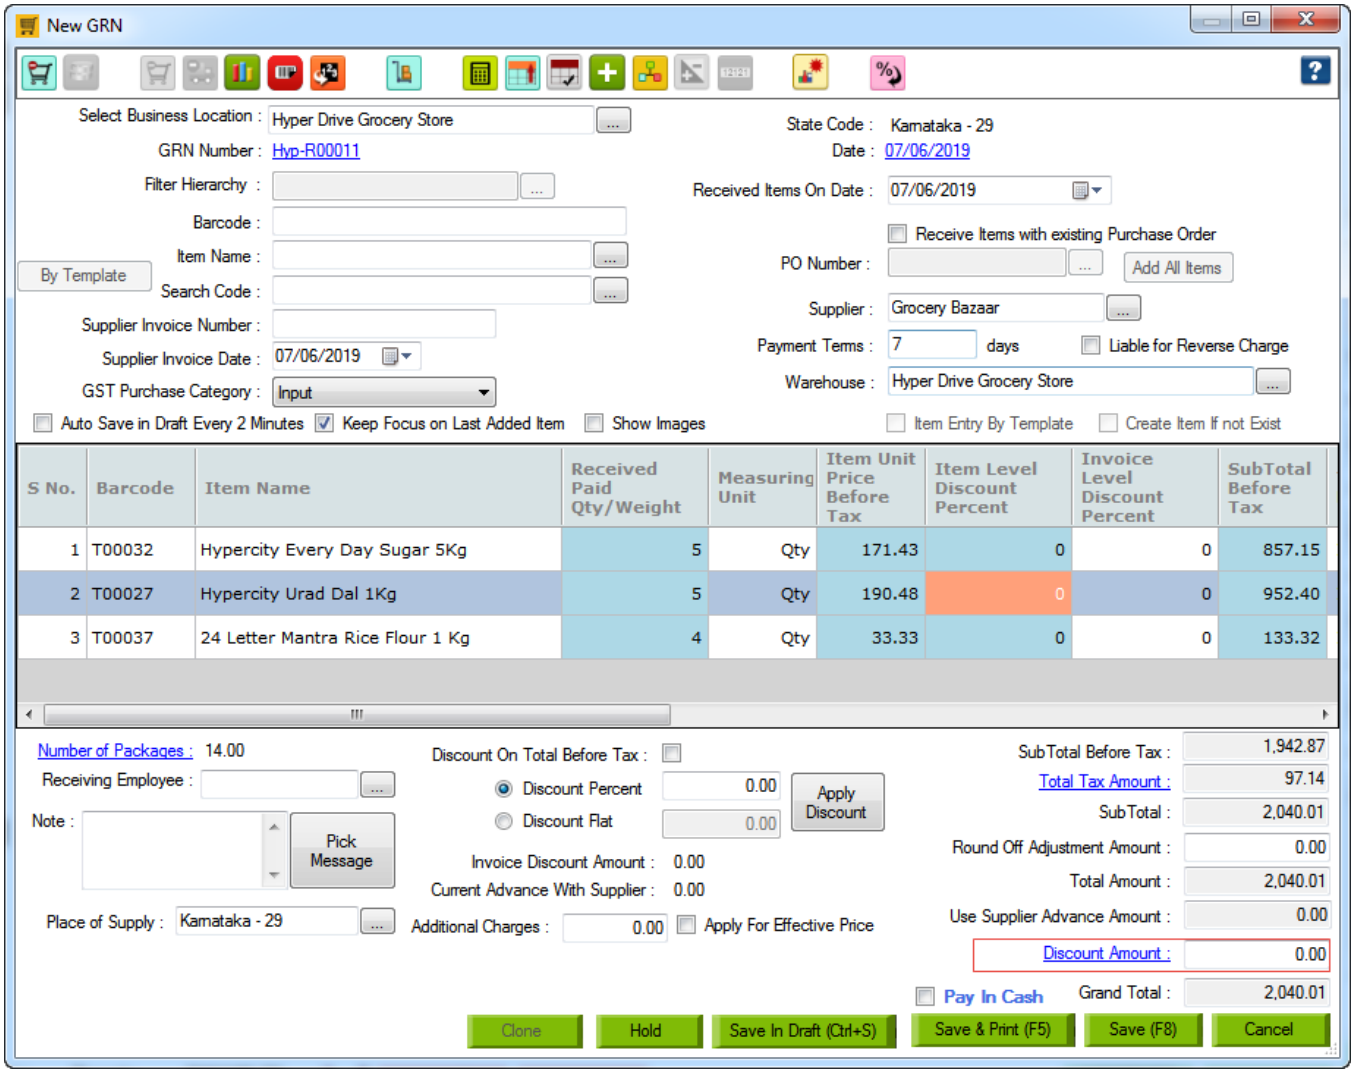

1. From **1st page** of **GRN Manager**, Click on **Add Simple GRN** button.

2. In the **New GRN** screen that opens select **items**, **Supplier** and **Warehouse** as required.

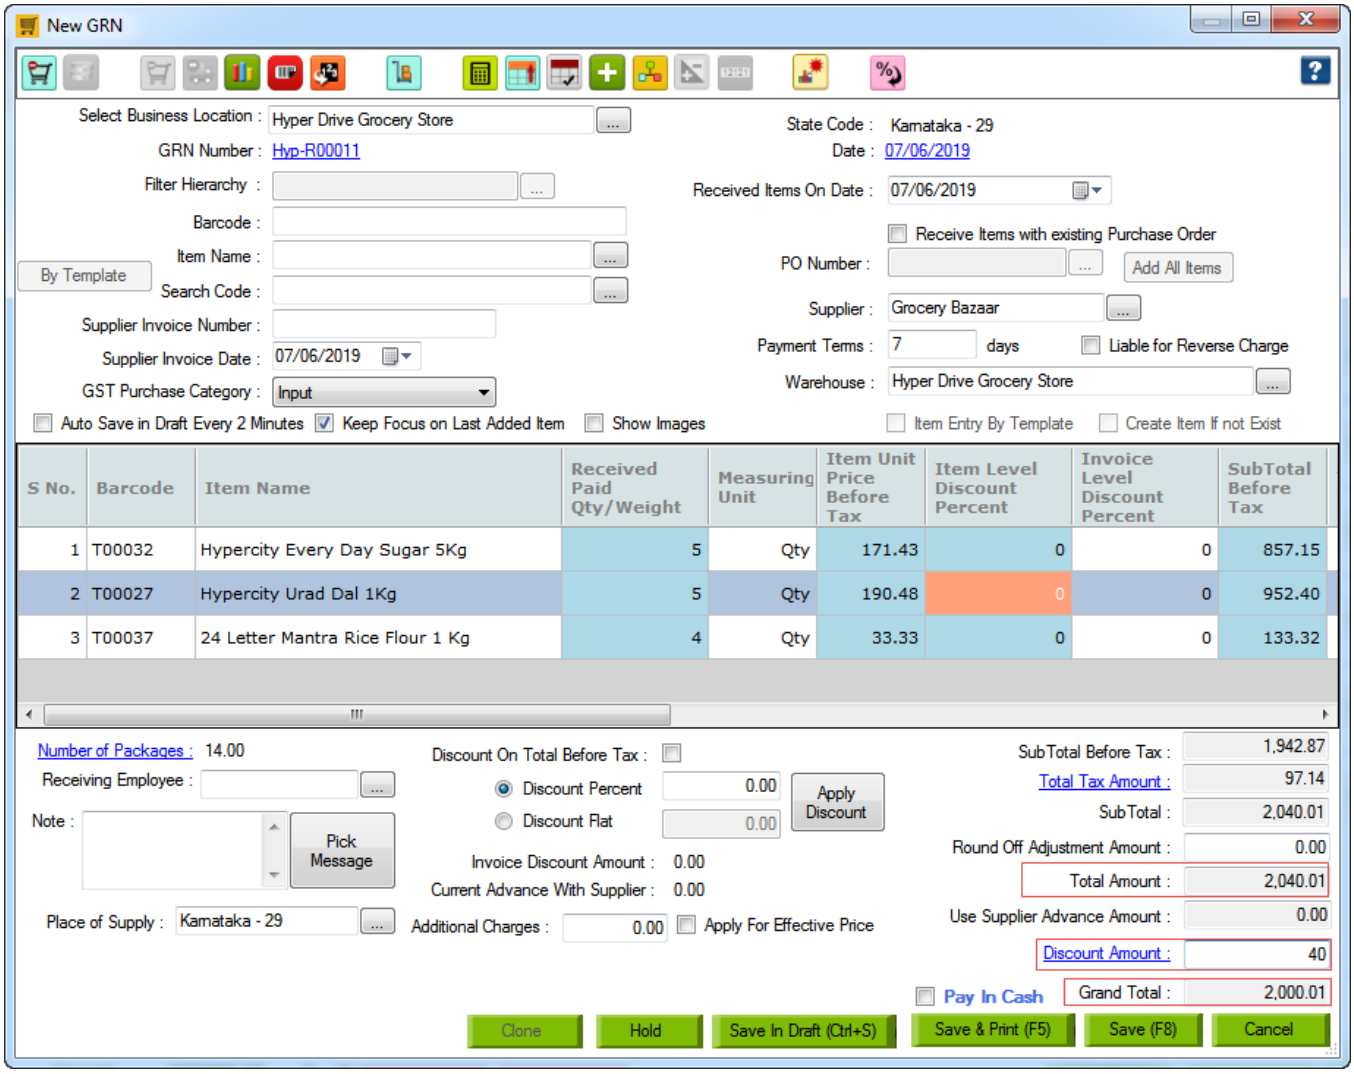

3. At the bottom of the screen you will see a **Discount Amount** field which appears only if you have selected '**Allow to add discount in GRN with No Effect on purchase price**' in **General Settings**.

4. You can give **Discount** in two way:

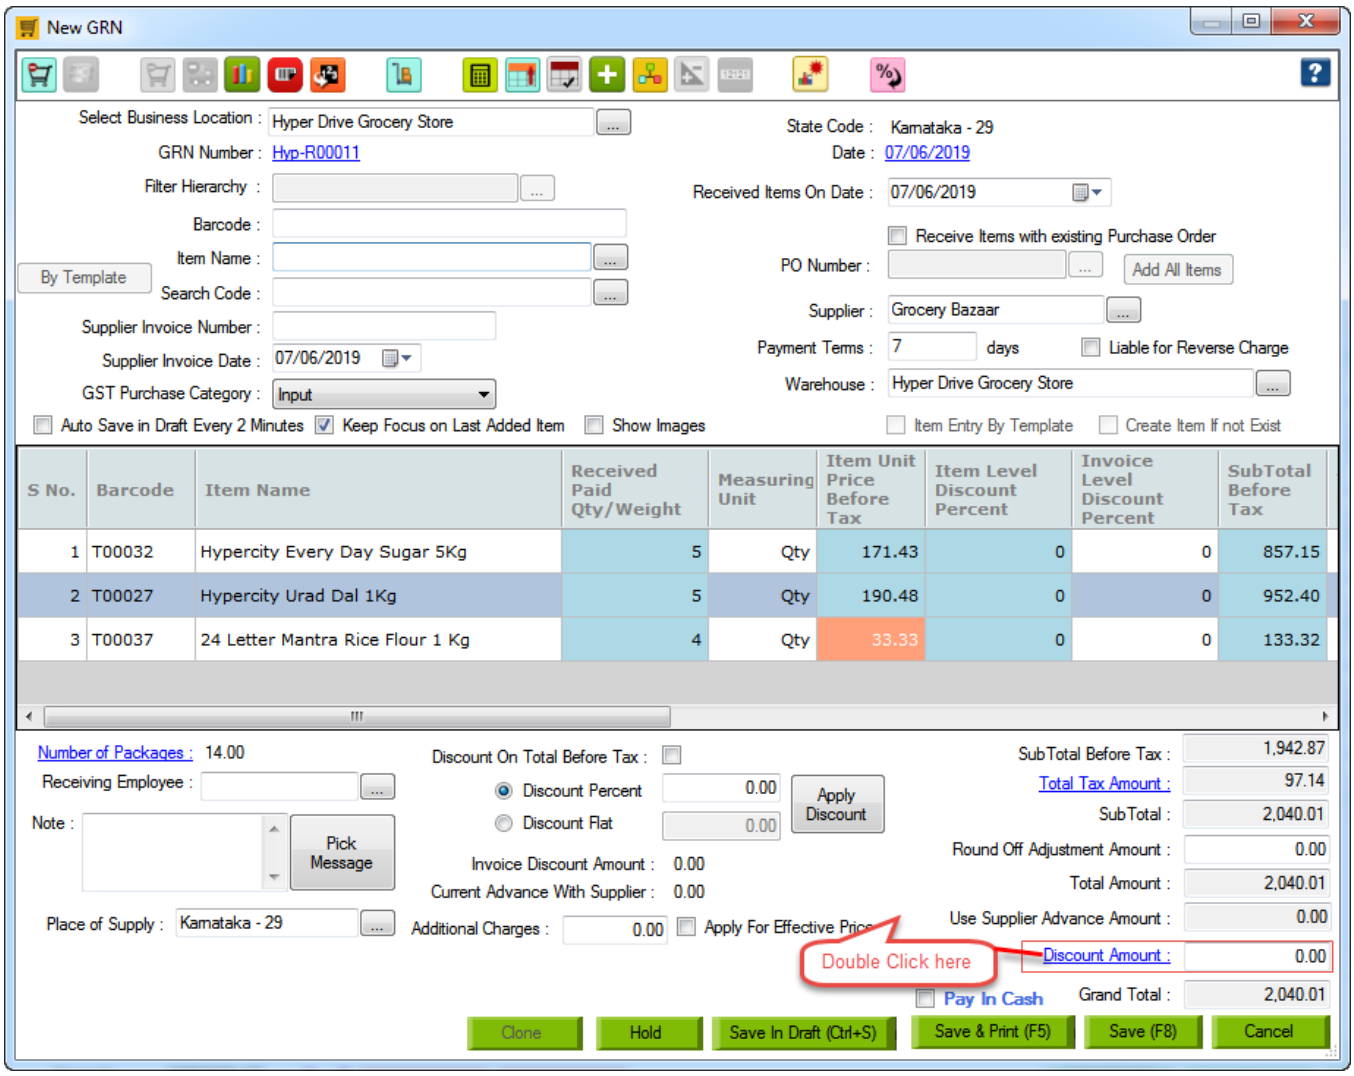

a. You can give a flat **discount.**

To give a **Flat discount**, just enter the **discount amount** in Discount amount field. This will deduct the discount from the **Total amount** and reflect the **Grand Total** payable to the supplier.

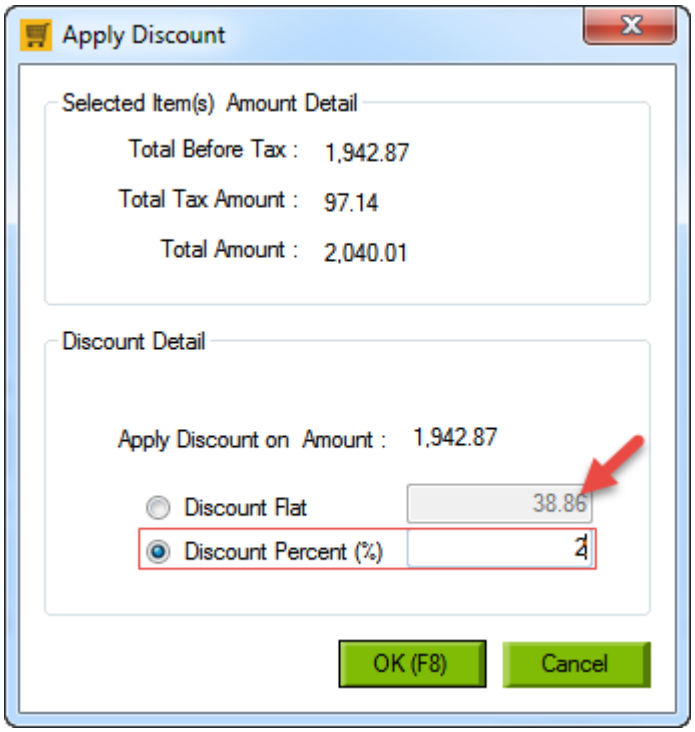

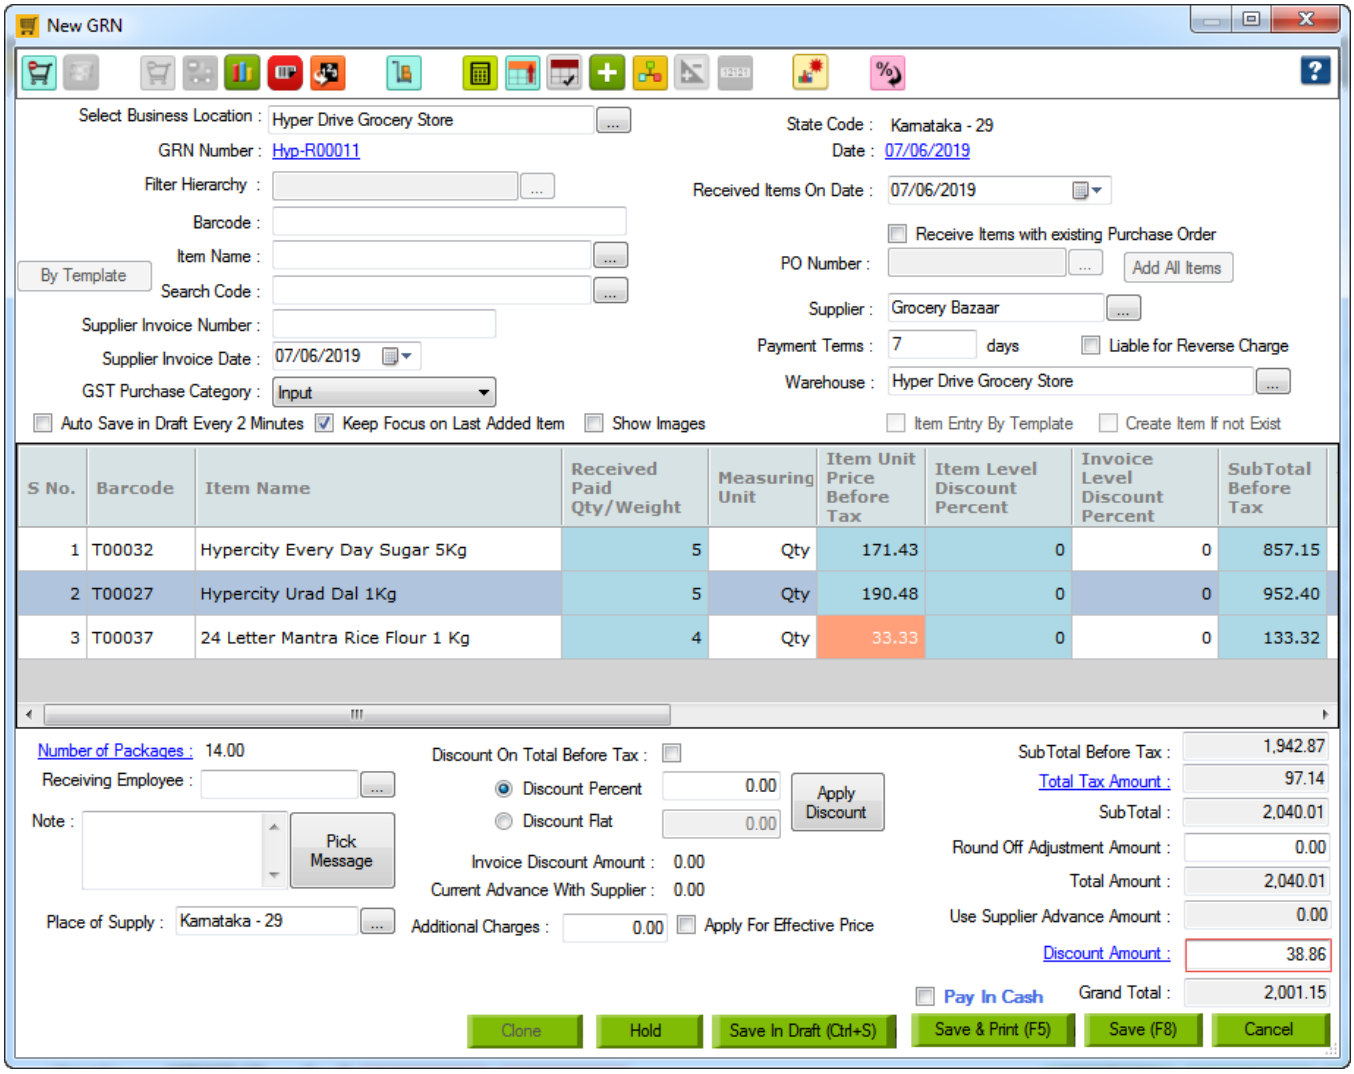

b. You can give **discount in Percentage**.

- To give a discount percentage **double click** on **Discount Amount** field.

- This will bring up the **Apply discount** screen where you can enter the **discount percent** based on which the discount value will get calculated and displayed in **Discount Amount field**.

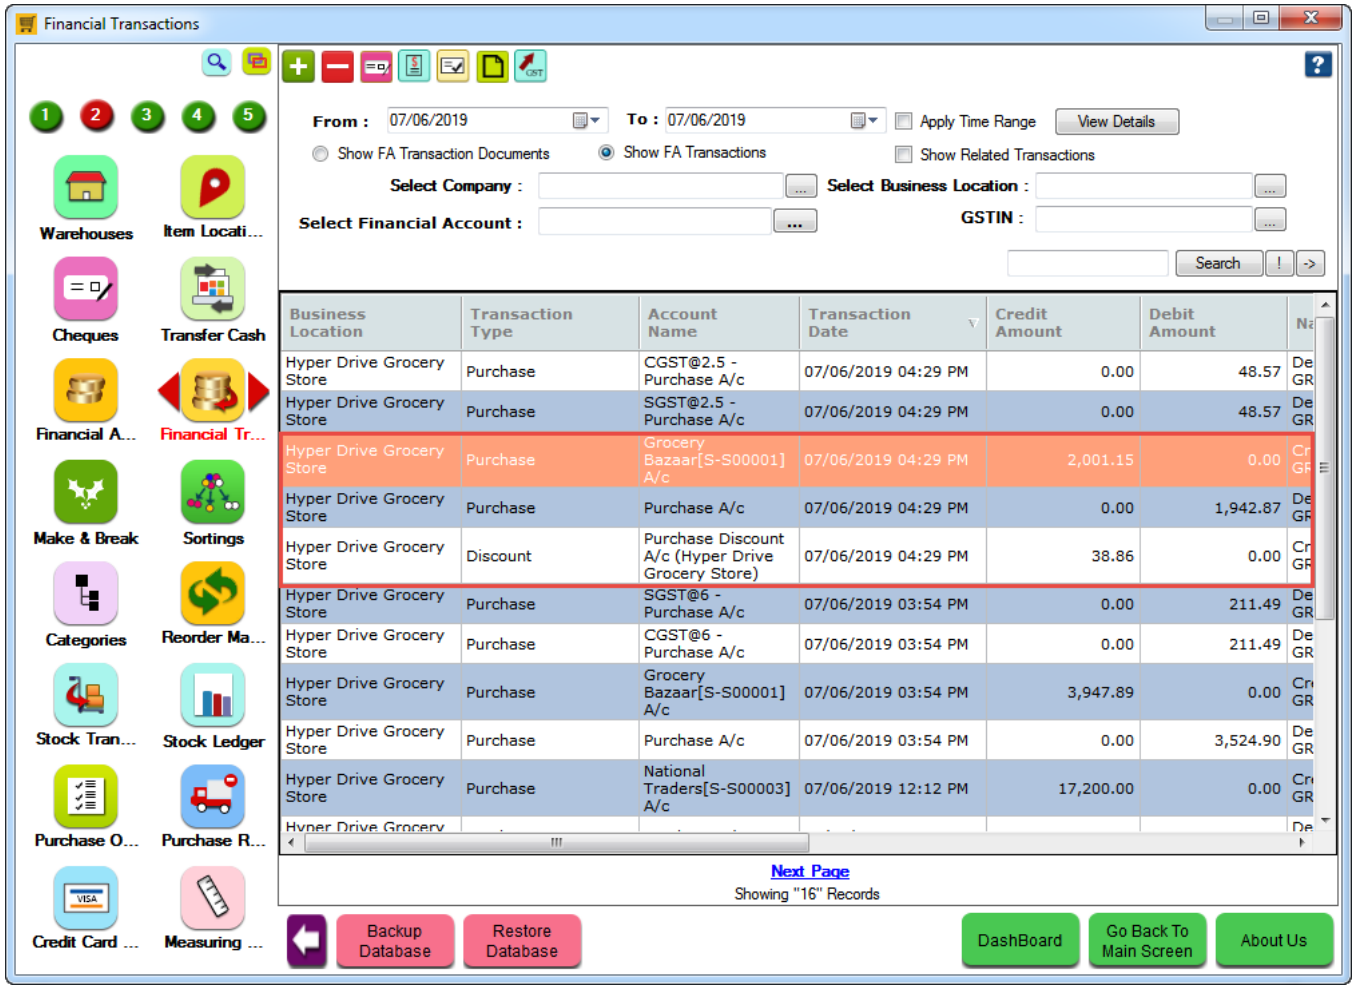

5. Click on Save to save your GRN.

6. Saving you GRN will pass the below **FA transaction** in the back end where

- **Purchase A/c** gets **debit** of total purchase amount.
- **Supplier A/c** gets a **credit** total payable amount to supplier.
- **Purchase Discount A/c** gets a **credit** of the total discount amount.
