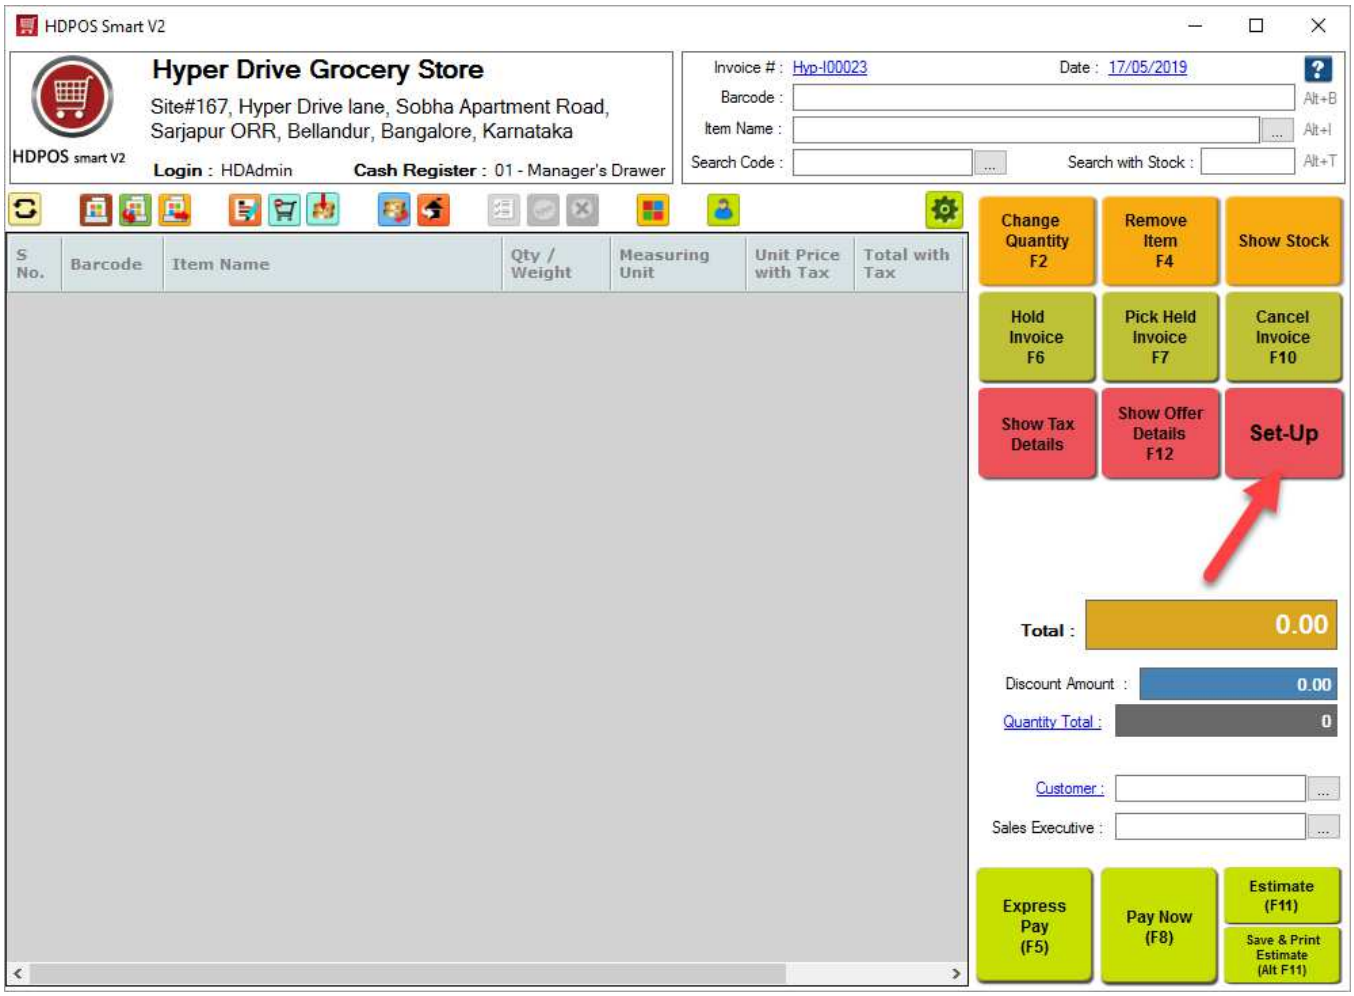
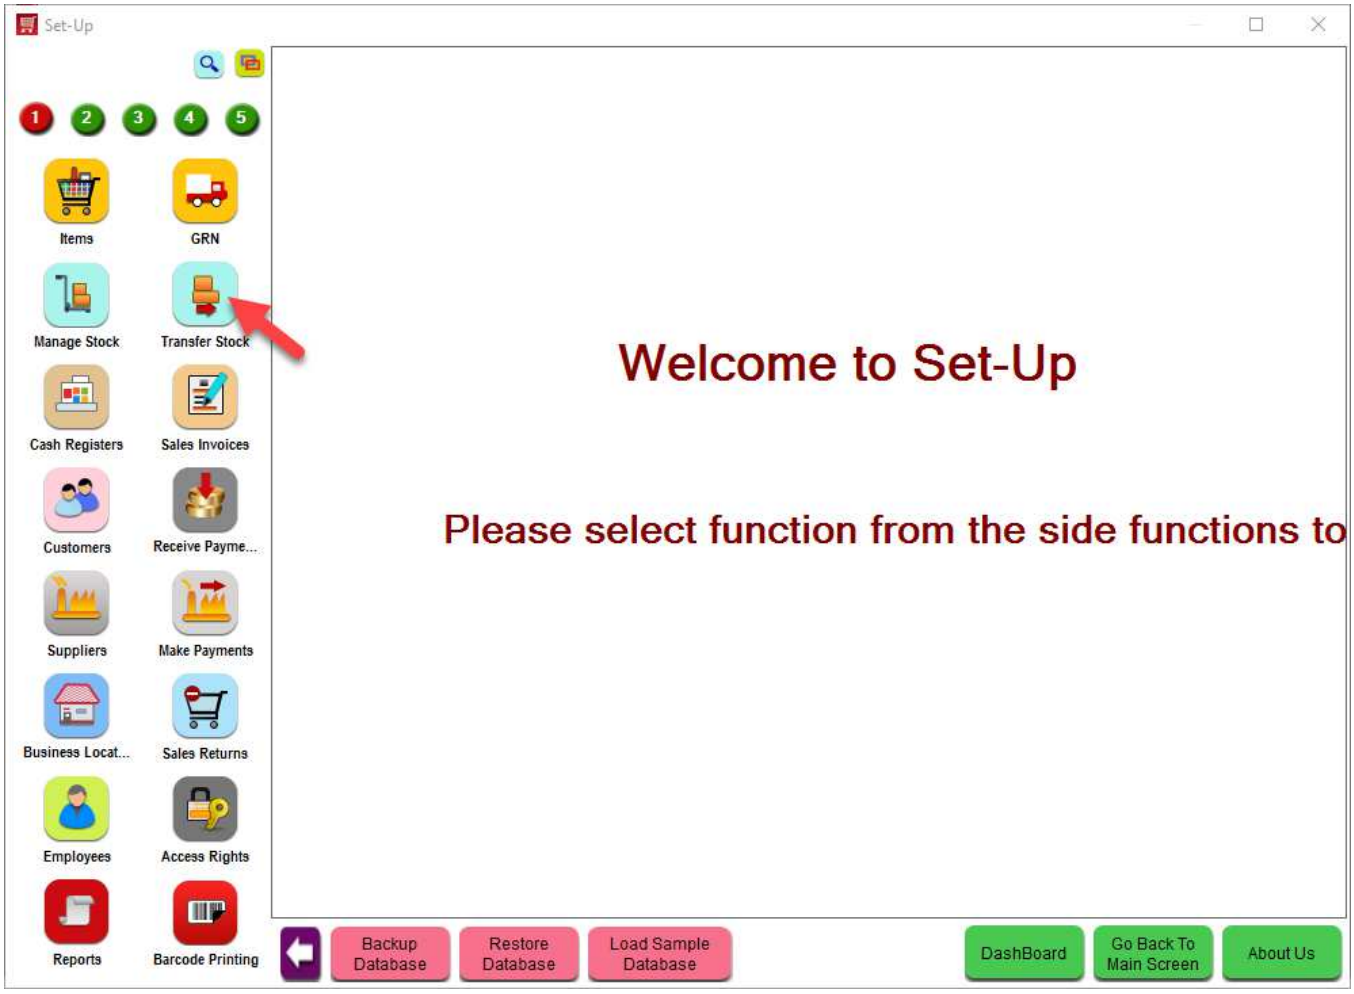
How to receive stock from transit?

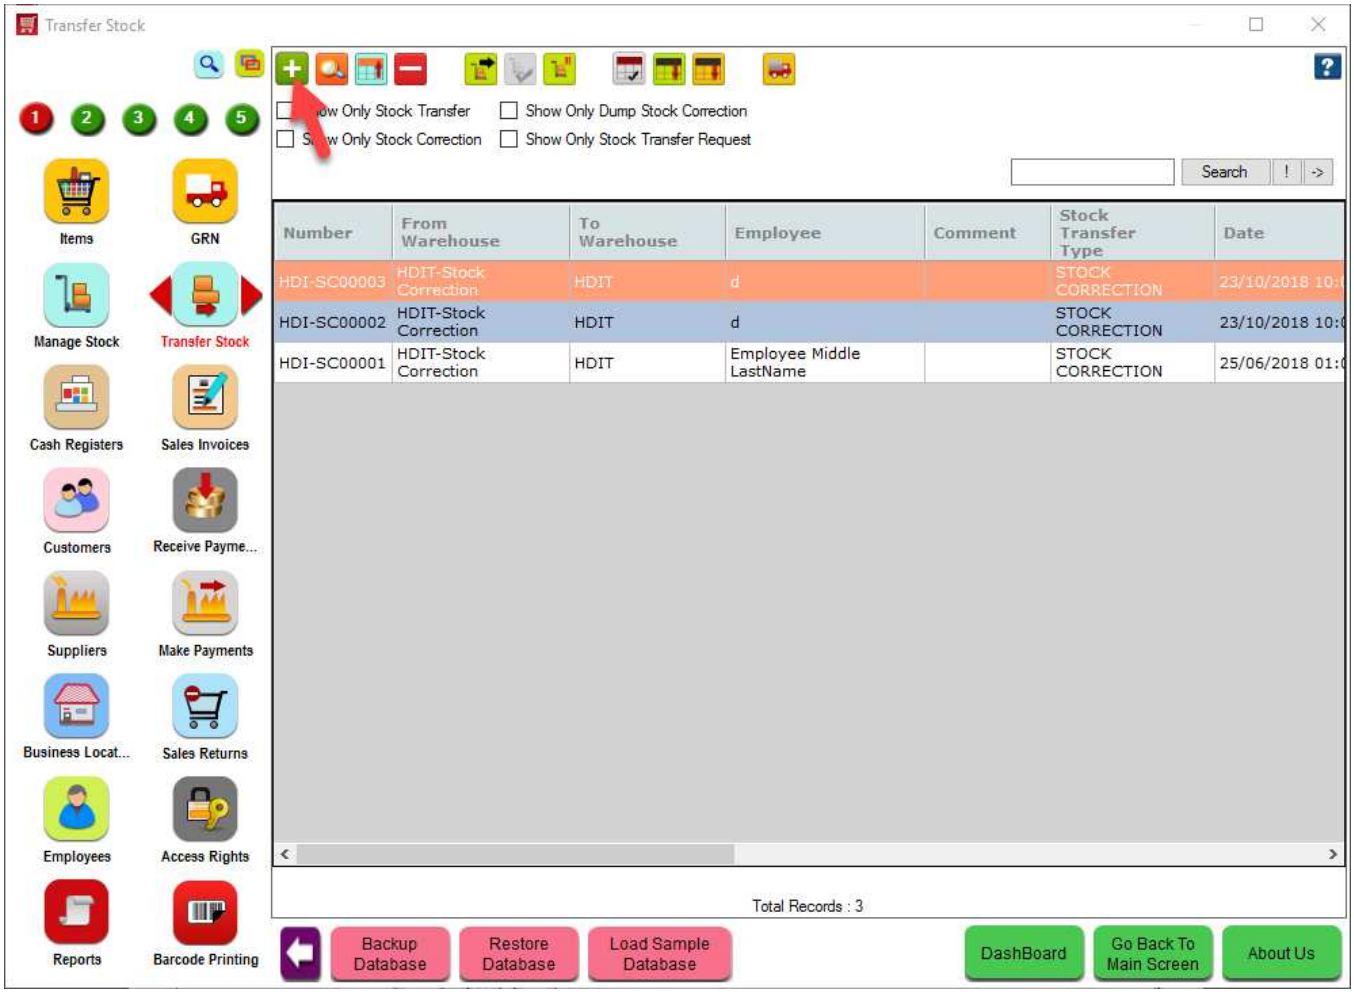
1. Run HDPOS smart and click on **Set-Up** button.



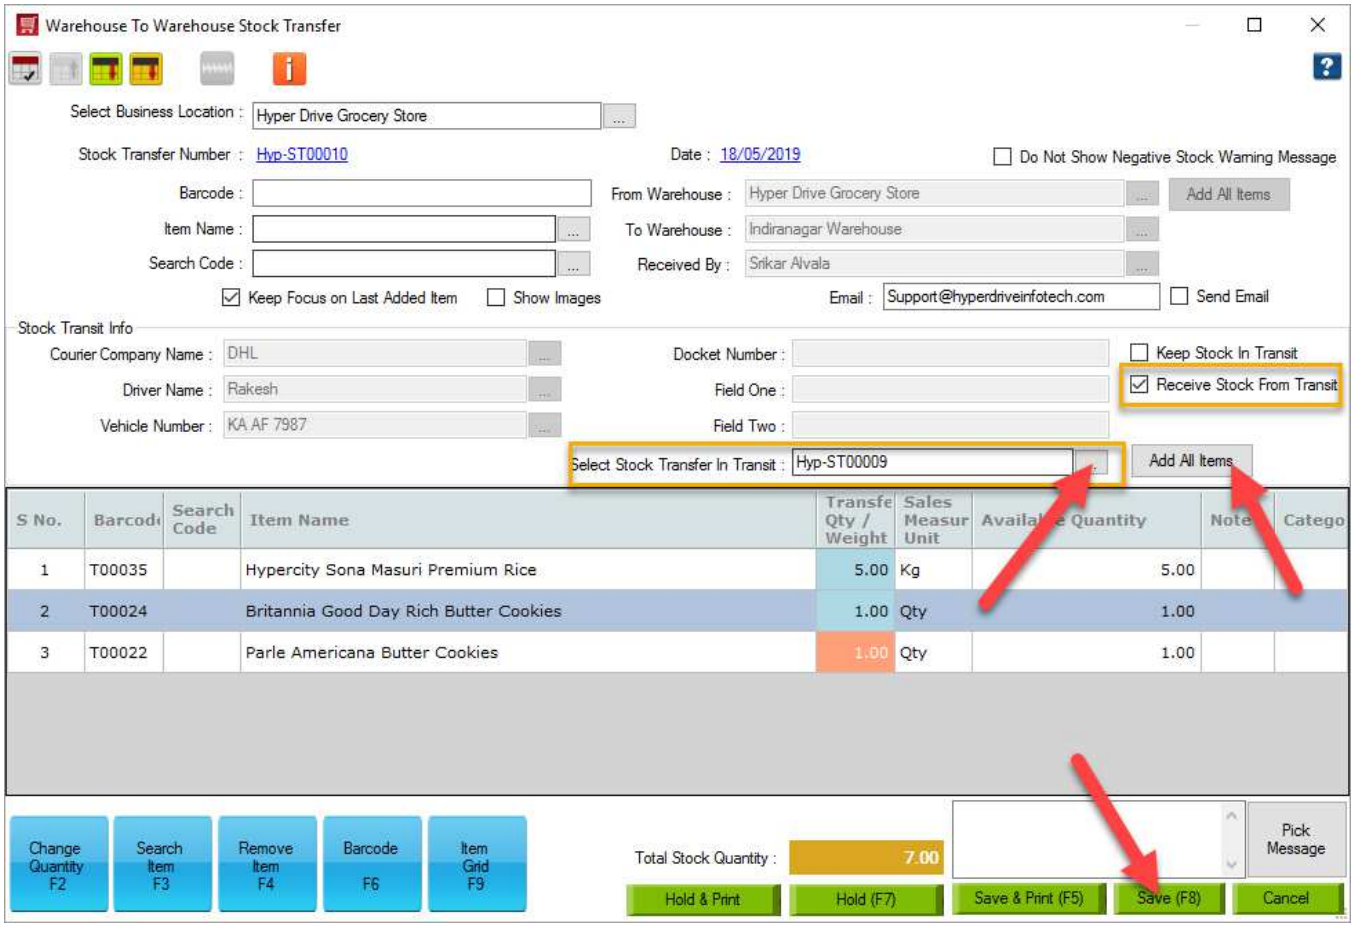
2. Click on **Transfer Stock** button from the 1st page of **Set-Up**.



3. Click on **Add Stock Transfer** button.



4. **Warehouse to Warehouse Stock Transfer** screen will be opened.



5. Check the **Receive Stock From Transit** check box as shown in above image.

This box has to be checked only when you have received the stock which was In Transit state.

6. When you will check the **Receive Stock In Transit** check box, you will see most of the labels will get disabled except few.

7. Click on **3 dotted button** to select **Stock Transfer In Transit**.

8. Click on **Add All Items** button. The item that has been received will automatically get added.

9. Click on **Save**.

10. You will see in Stock Transfer screen the status will change to **Transit Completed** and **Received From Transit**.
