How to copy the functionality name to assign access rights

HDPOS smart v2 Tutorials

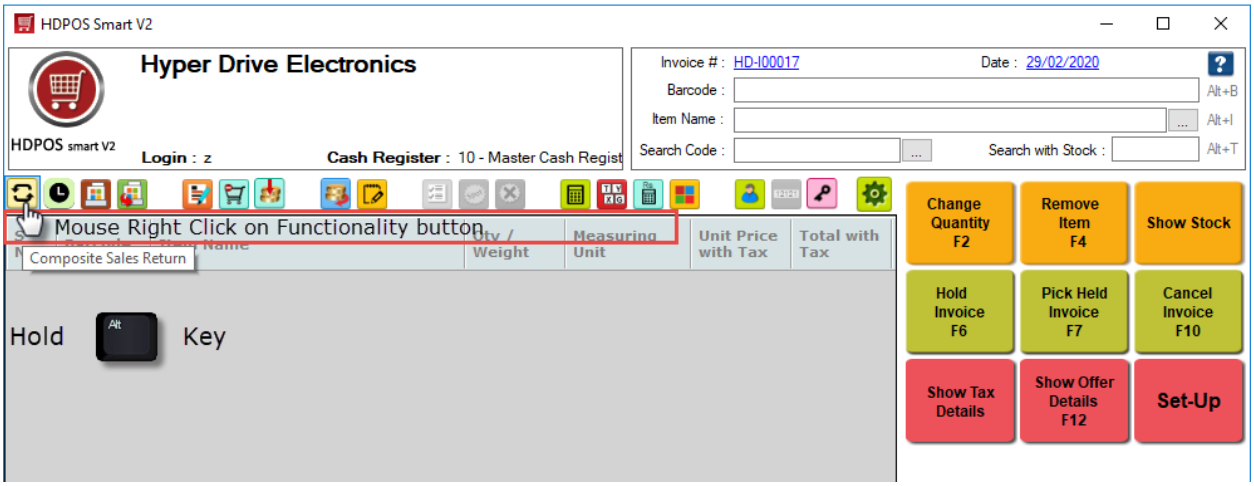

To select the functionality easily in HDPOS smart, follow the steps below.

1. Run **HDPOS smart**.
2. You can select any functionality name to assign access rights in two ways :
   A. while holding down the **Alt** key, mouse right click on the functionality (to copy functionality name one at time)

   OR

   B. While holding down the **Shift** and **Alt** key, mouse right click on the functionality (to copy one or more functionalities)

For Example: I have selected the Composite Sales Return button on the POS main screen.

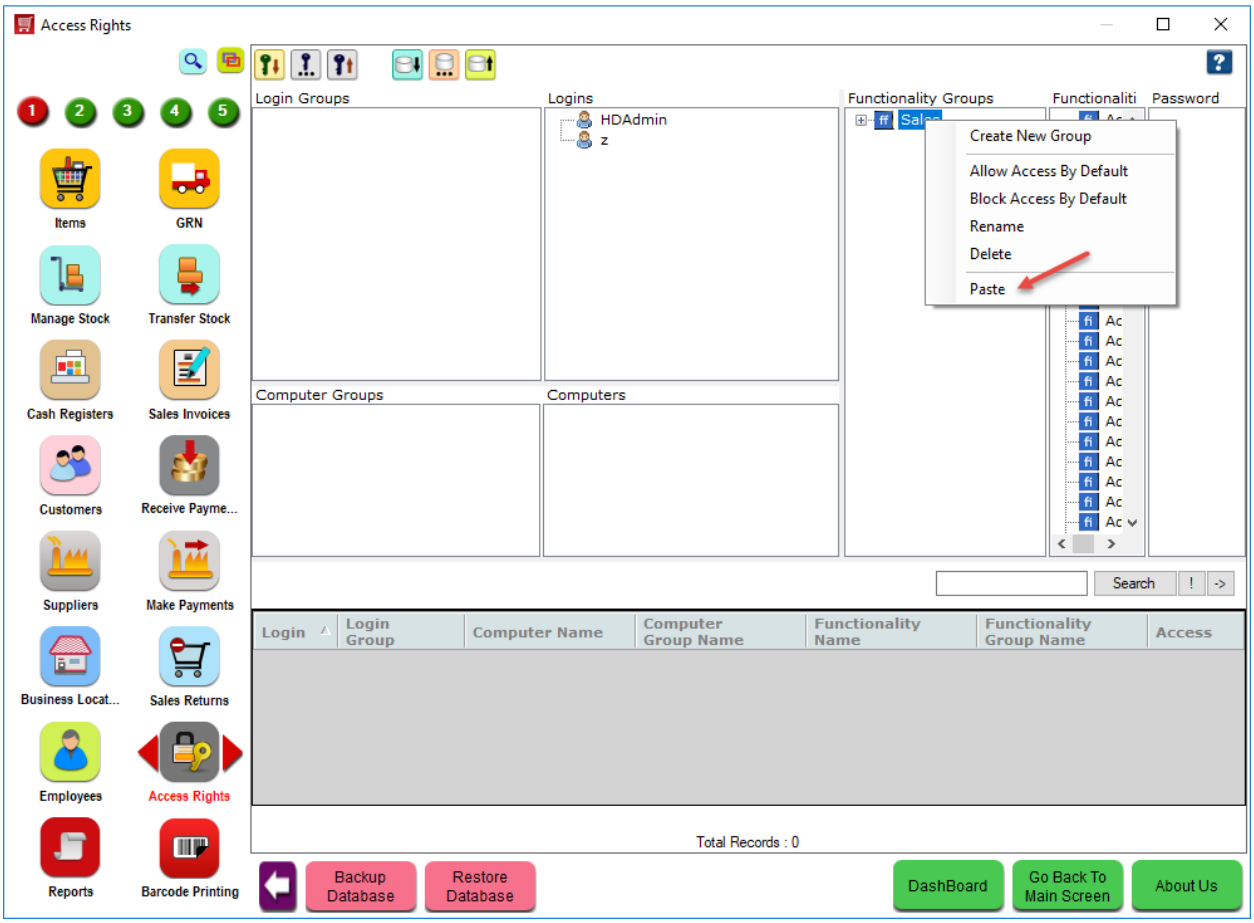

3. Now go to Access Rights module.

4. In Manage Access Rights screen, under the functionality section, right click to create a functionality group. Enter a name for the group and click on Save.

5. Select the group and right click on the mouse. You will see a menu as shown below. Click on **Paste** button.

6. The functionality that you selected in Step2 will be copied here.
