How to keep stock correction on hold

To keep stock correction document on hold, follow the steps below :

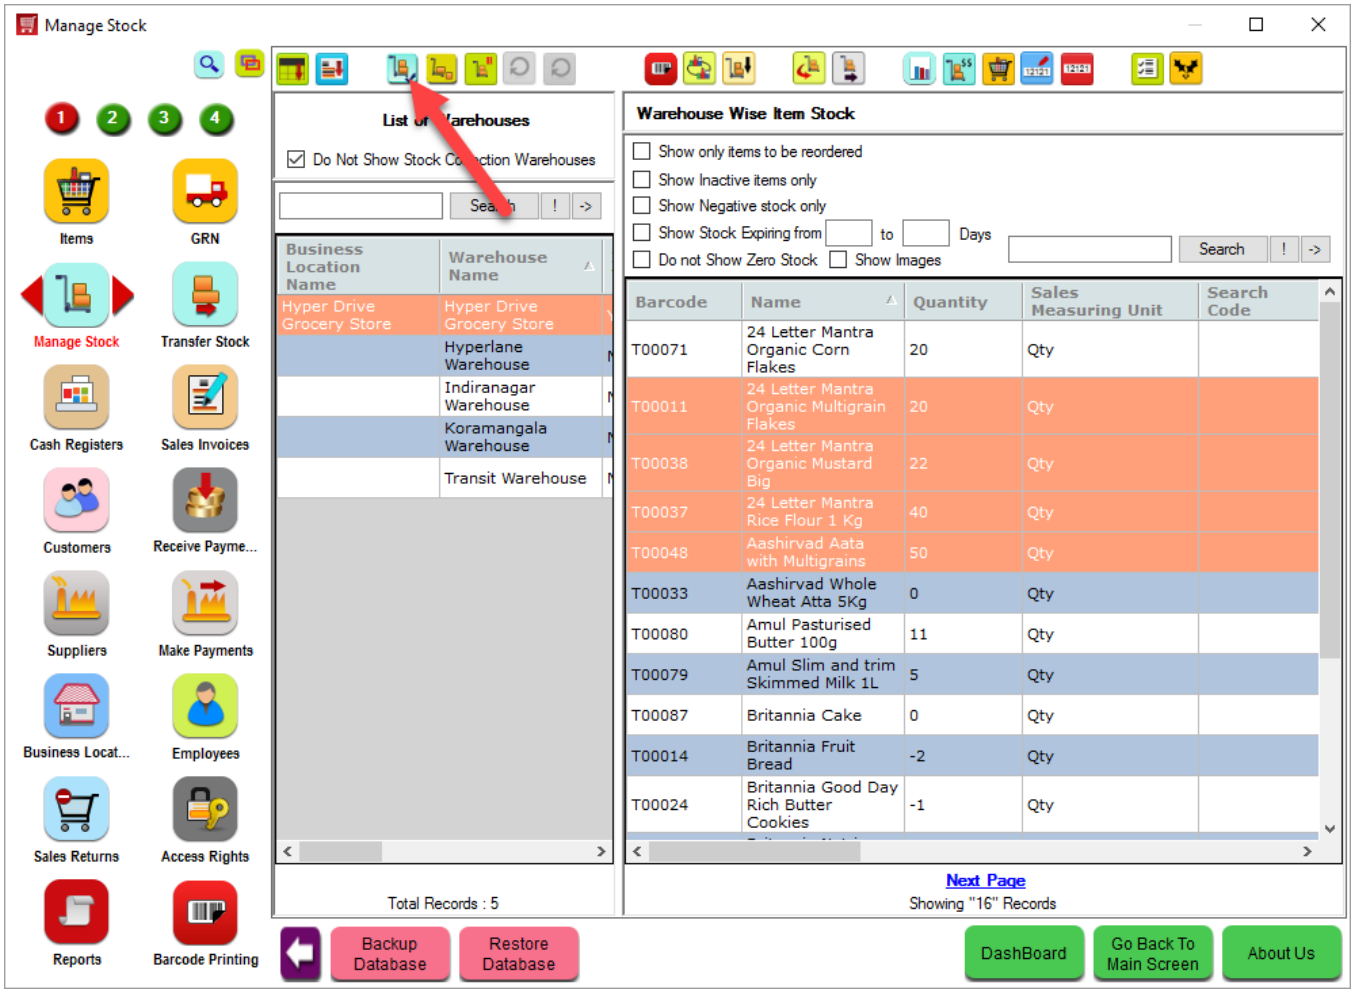

1. Run **HDPOS smart**. Click on **Set-Up** button in the main screen.

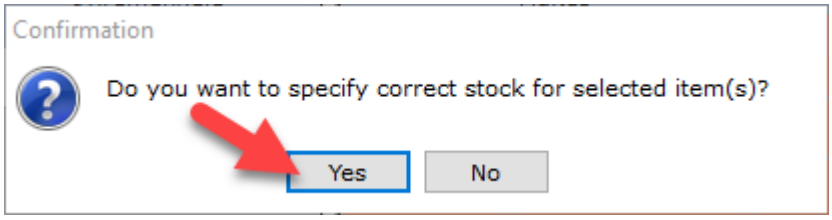

2. From Set-Up screen's 1st page, click on **Manage Stock**.

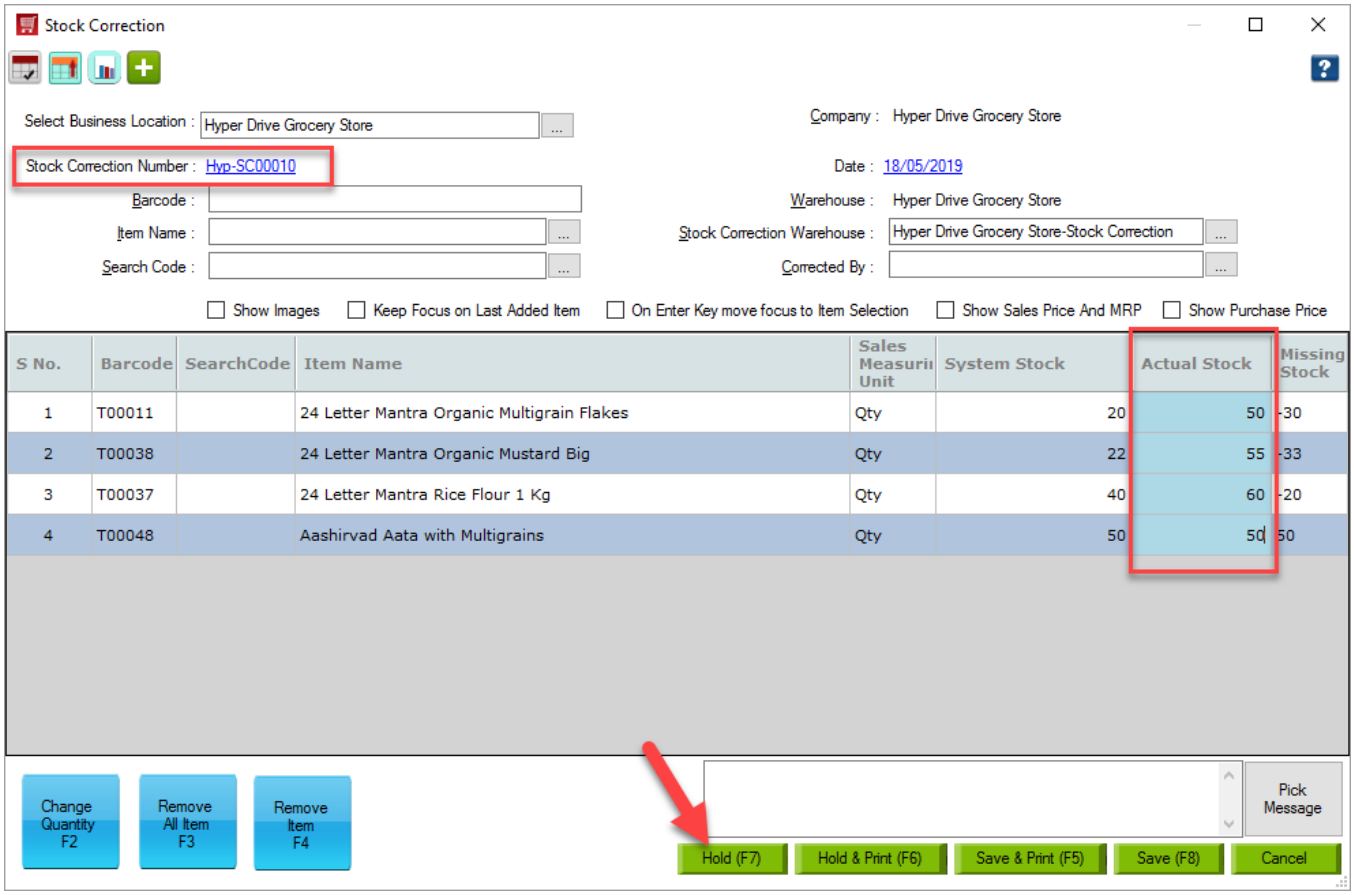

3. In the **Manage Stock** screen, select the items for which you want to do stock correction and click on **Stock Correction** button from the tool strip.

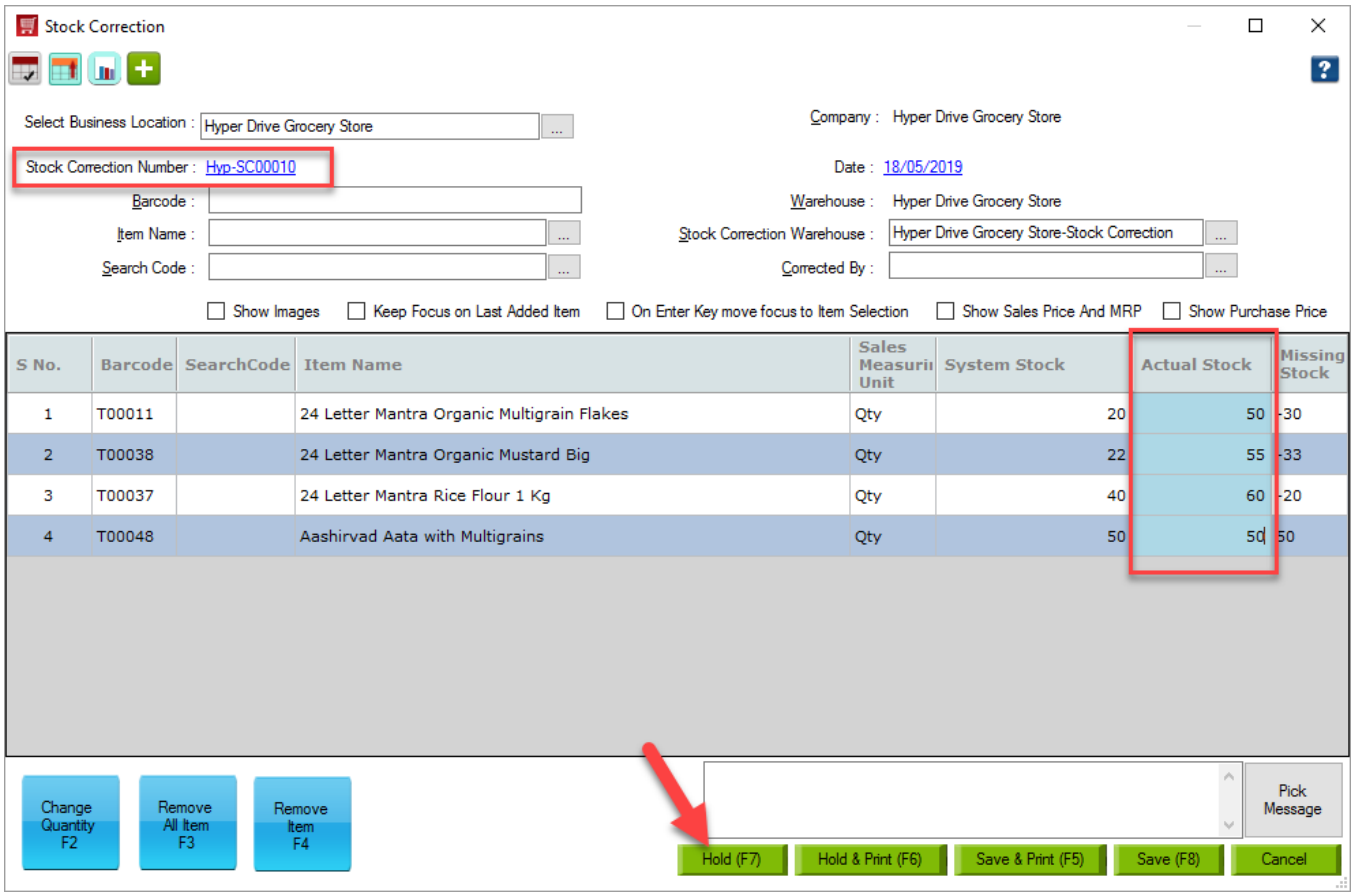

4. You will see the following message box. Click on **Yes**.

5. You will see the **Stock Correction** screen as shown below. Enter the **actual stock** for items. Click on **Hold** button.

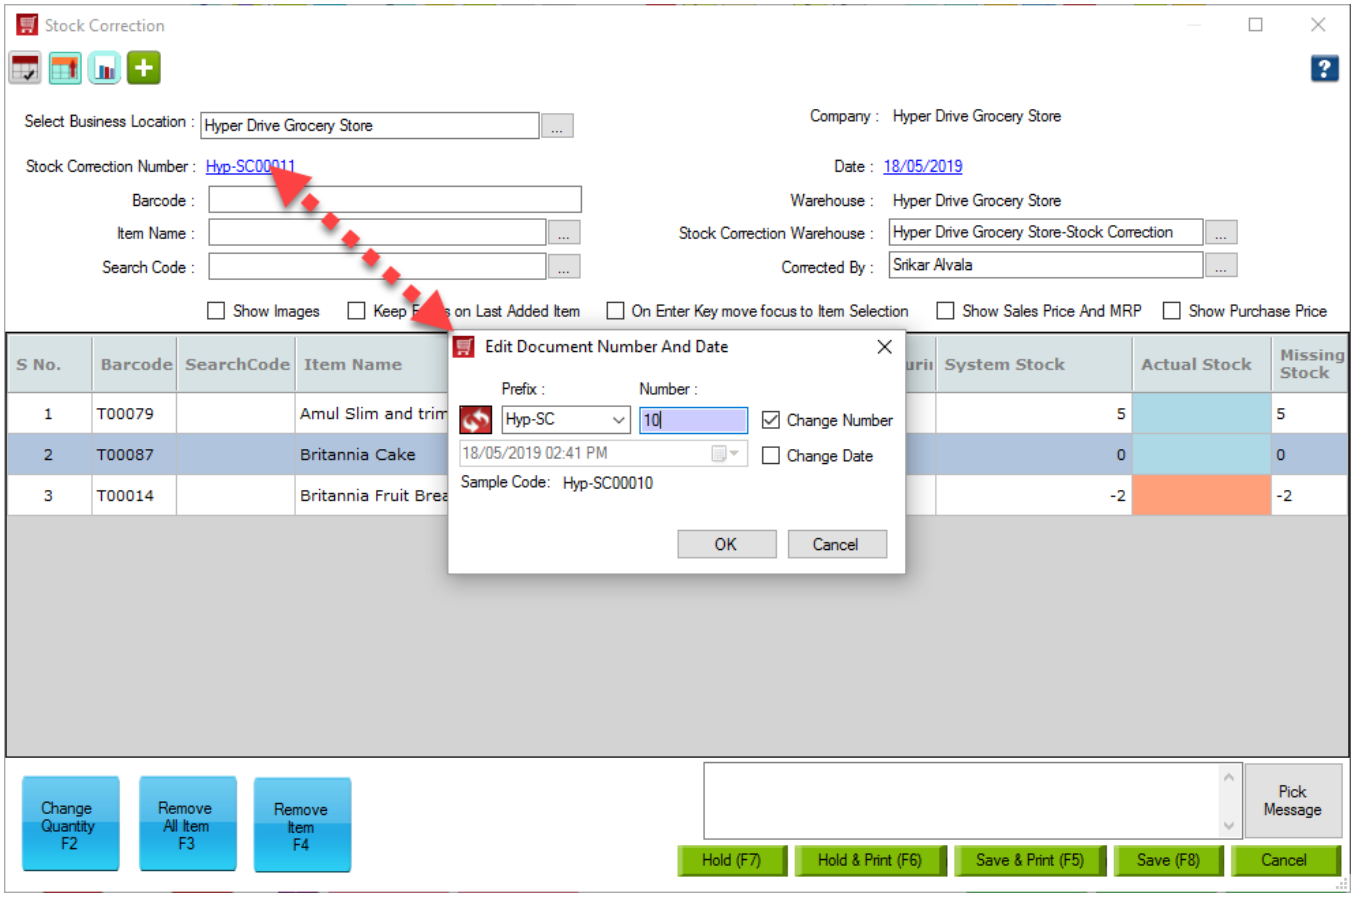

Note: In Stock Correction duplication of number is not allowed.

- Repeat the steps 3-6 to create another stock correction document and try to change the number of it with the held stock correction number.

For example:

- The above held stock correction number is **Hyp-SC00010**.
- Create a new stock correction which is created with number **Hyp-SC00011** and change the number to **Hyp-SC00010**.

- You will see the following error message.
