

How to upgrade your HDPOSsmart (Stand Alone) to the latest version?

HDPOS smart Tutorials

HDPOSsmart will have newer releases with more features added to an already feature-rich software. Additionally, newer releases might have bug-fixes and performance improvements. You can update your application anytime to avail the newly added features and benefit from them.

NOTE: Kindly backup your database before proceeding with updating the application.

The steps to update the HDPOSsmart application are as shown below:

1. Click [here](#) to go to the download page
(copy-paste <http://www.hdpos.in/Download> into your browser if the link did not work)
2. Click on **Download HDPOS SA** in the 'Download HDPOS smart for Single Cash Register' section to download the application.

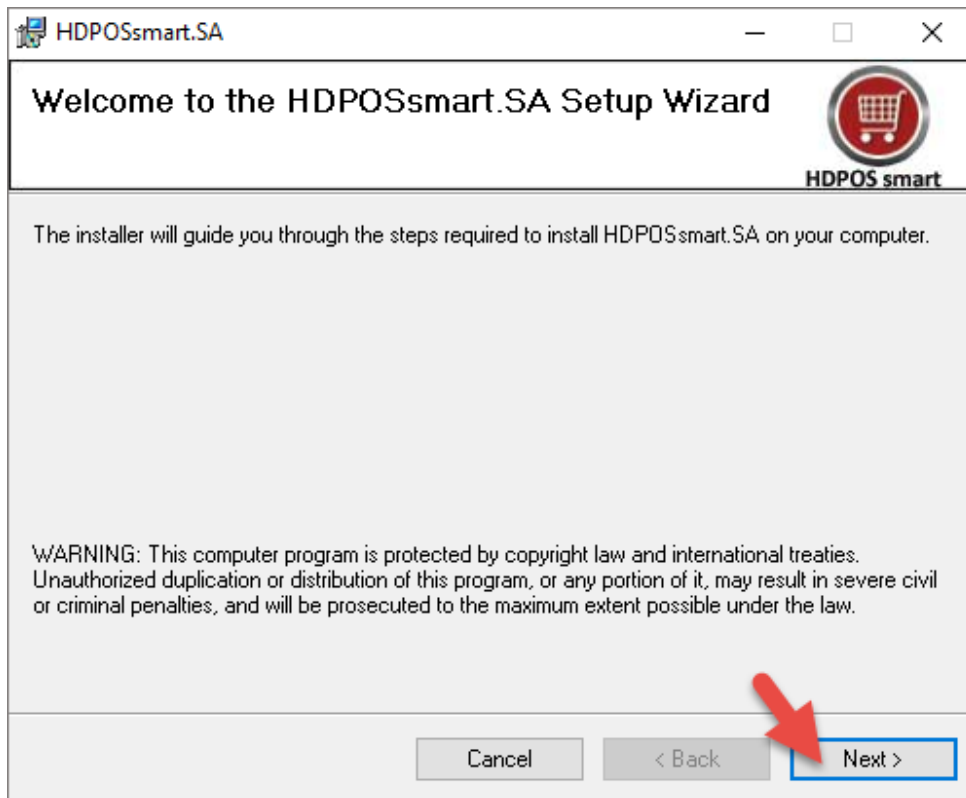

The screenshot shows a web browser window displaying the HDPOS smart website. The address bar shows 'www.hdpos.in/Download'. The page has a dark blue navigation bar with links for Home, Products, Download, Feature, Shops, Tutorial, Get Started, and Contact Us. The main heading is 'Download HDPOS smart for Single Cash Register' with a sub-heading 'Free trial for one month'. On the left, there is a product image for 'HDPOS smart STAND ALONE' with a 'BUY NOW' button. The main content area contains a 'Download HDPOS SA' button, which is highlighted with a red arrow. Below it is a 'Release Notes' button. The text describes the software as a full functionality download with a 30-day trial. A 'Please note' section mentions Windows XP compatibility. On the right, there are two columns of bullet points listing features like quick setup, no SQL server requirement, and ease of use. At the bottom, there are 'Download HDPOS smart' and 'Demo Request' buttons.

3. Double-click on the downloaded file to install

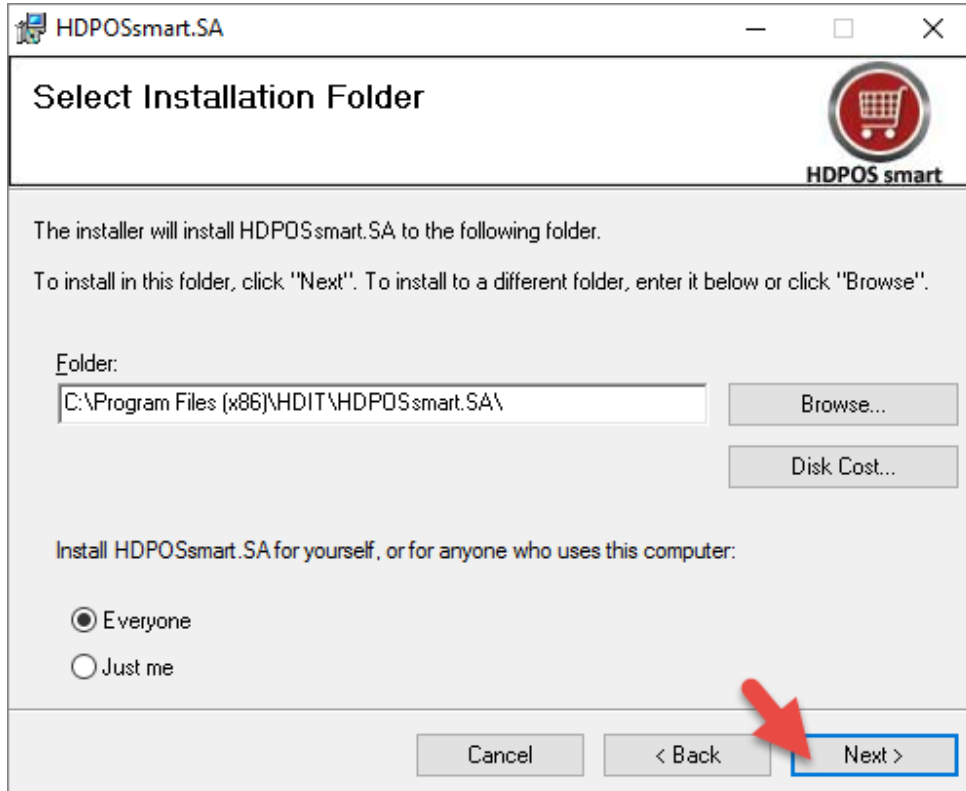

4. Click on **Next**

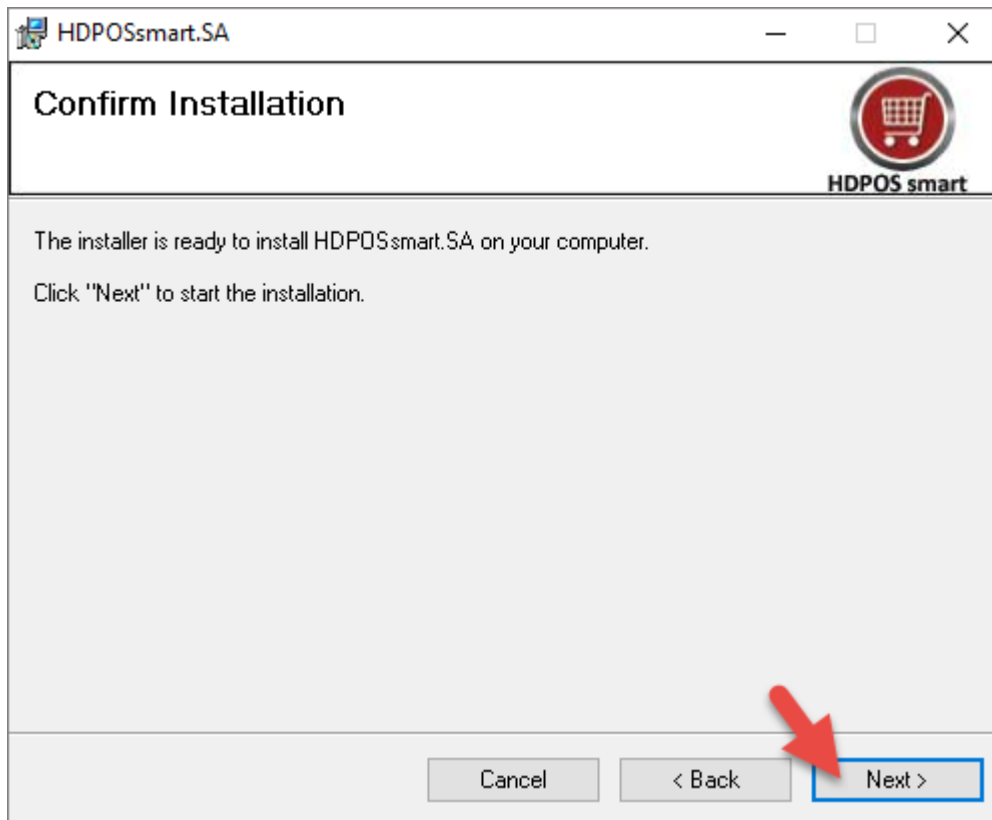

5. The default installation folder is selected. Change the folder if required, and click on **Next**

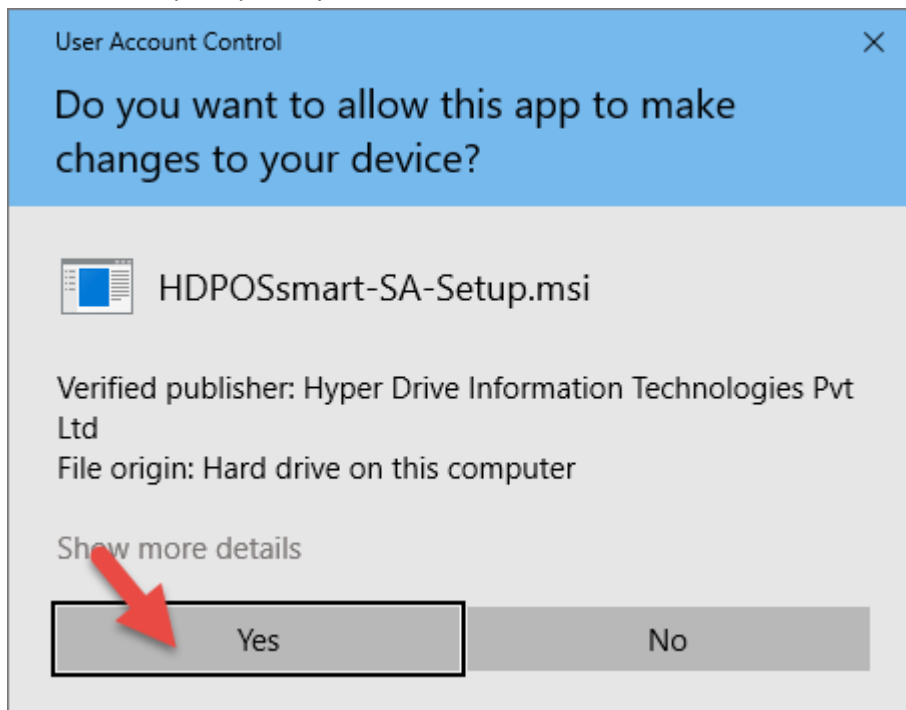

6. Click on **Next** to confirm installation

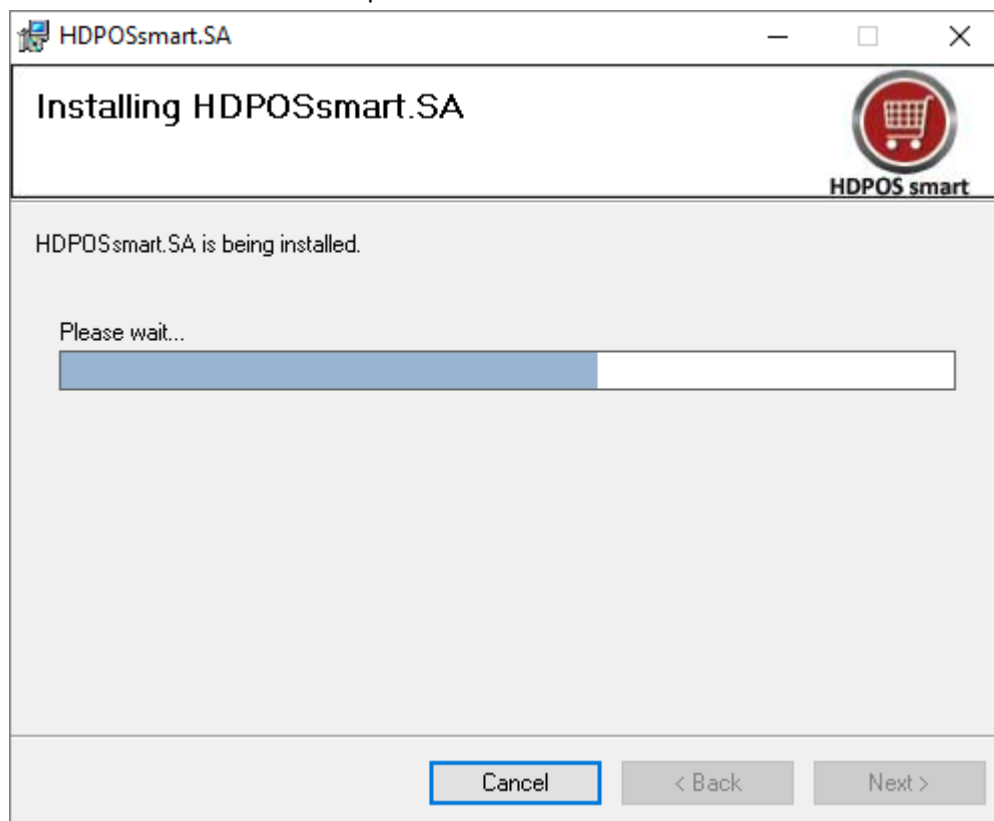

7. Click on **Yes** if prompted by windows

8. Wait till the installation is completed

9. Click on **Close** after installation to close the window and run the HDPOSsmart application
